ON THE COVER

Pictured is Indiana's Dave Volz, who not only became the first American Junior to clear 18 feet, but who also reigned as king of the vault in both the 1981 U.S. Junior Championships and the NCAA Championships. All told, he broke the old AJR three times and he now owns seven of the top ten vaults in U.S. Junior history. Photo courtesy of Jeff Johnson and Track & Field News.

PREFACE

This edition marks the fourth appearance of the U.S. Junior Annual. Sharp-eyed readers will note that the format of the book has remained intact, as has much of the content. The cancellation of the 1981 U.S.-USSR dual resulted in a somewhat quiet year on the American Junior front.

It is the authors' hope that the loss of the Soviet match will not hinder the growing appreciation of Junior track & field in the U.S. With the running of the 2nd Pan-American Junior Games coming up this summer, there is hope for the development of international competition for our future stars of the sport.

As in the past, no World Junior statistics are presented. Marks by athletes so young are always buried in deep lists of senior marks and are not available until much later in the year, when birth year information is sorted out.

Age-group fans may notice that Starting Line's U.S. Junior Rankings, which appeared in last year's annual, are not included herein. Due to deadline commitments, those rankings, which are compiled by Bill Peck, are not found.

Special thanks are due to many for help in the production of this book. Richard Perelman, the editor of the first three editions of the Annual, left us with such a complete framework, that much of the difficulty in compiling a book like this was eliminated. Scott Davis provided the data processing equipment, the wisdom of experience, and a tasty cup of tea. The work of statisticians like Jack Shepard, Bill Peck, Dave Johnson, and Howard Willman do much to further the development of junior t&f statistics. Junior Team Press Officer Bruce Tenen provided inspiration and endured numerous reruns of my answering machine tape, and TAC Press Information Director Pete Cava is the guy responsible for this book seeing print. Special thanks to Laurie Weiner for production support and encouraging words.

As always, reader comment is appreciated. Send corrections, amendments, and questions to the editors in care of Pete Cava, TAC/USA, P.O. Box 120, Indianapolis, Indiana 46206.

Regulations:

- (1) Marks must be made from January 1, 1982 to June 6, 1982. High School performances must be achieved in league, district, regional or State championship competitions and in recognized invitational events such as relay meets, etc.
- (2) Qualifying standards must be made in metric distances. No Intermediate distance times or time conversions will be accepted.
- (3) Marks achieved in indoor competitions are not acceptable.

Regulations:

- (1) Qualifying marks must be made in (1) Athletics Congress sanctioned meets; (2) Collegiate meets or (3) High School meets except dual and triangular competitions.
- (2) Outdoor qualifying standards must be met from January 1, 1982 through June 20, 1982.
- (3) Indoor marks made after January 1, 1982 can be submitted for entry, but the submitted performance must be indicated as indoor.
- (4) A three percent (3%) altitude allowance will be permitted on track events of 800 meters and longer conducted above 4000 feet.

Section I:

WHAT'S A JUNIOR?

Junior competition in the United States has only recently conformed to the international definition.

Until 1972, the AAU Junior Championships were open to those who, regardless of age, had not won any (AAU) national championship that year nor had won any event in a foreign national championship, the NCAA Championships, the NAIA Championships, or the ICAA Championships. Members of Pan-American or Olympic teams of any country were ineligible for the Junior Championships.

This was the definition of "Junior" from 1900, when the first such championships were held, until 1972, when the present format was introduced.

In 1972, the American Junior title meet was limited to men who would not turn 20 in the year of competition. The present rule for women limits competition to those who are between 14 and 18, and will not reach 19 during the year of competition. See TAC Rule 1(3).

There was a short period when women followed the same age rules as men, but this has been changed and both the Americans and Europeans follow the same definition.

All statistics in this book are based on the present age rules.

The following chart illustrates the age rules:

Men	You must have been		Women	You must have been	
	To compete in	born no earlier than		To compete in	born no earlier than

WORLD JUNIOR RECORDS

(at 1 May 1982)

No international body recognizes Junior records. These, therefore, are the best statistically-acceptable performances made by Juniors.

"Junior" athletes are considered to be men who will remain under 20 during the entire year of competition, while women must stay under 19.

ALL-TIME UNITED STATES JUNIOR WOMEN'S LIST

(at 1 May 1982)

Presented here is an update of the first known all-time U.S. Junior Women's list, initially presented in last year's edition of the Annual. It presents all-time performers and performances of women who did not turn 19 during the year of competition.

Special thanks to Richard Perelman, one of the co-compilers of the original list, Bill Peck of Starting Line, the editorial staff of Track & Field News, and to the late Peter Pizzoli, whose work provided a thorough cross-check for data between 1966-1975.

Section IV: 1981 in Review

• 1981 U.S. MEN'S AND WOMEN'S JUNIOR LISTS •

Compiled by Jeannine James, Jack Shepard and Howard Willman

To qualify for these lists, men's athletes must be born in 1962 or later and must have remained a teenager throughout the calendar year; women's athletes must be born in 1963 or later and must have remained no older than 18 throughout the calendar year. We have listed birthdates where known. 7 - birthdate unknown, but athlete participated in Junior

competition, as is presumed to be legal; ?? - birthdate unknown, but athlete is thought to be legal due to his/her scholastic standing. Special credit goes to age group experts Bill Peck and Max and Mark Zucker for their help in finding birthdates. We welcome all amendments to these lists.
