HSJ - Andrews, Striders, 52'5 $\frac{1}{4}$ ", new national record; Stokes, S, 51'6 $\frac{1}{2}$ "; Lawson, S, 49'1 $\frac{1}{2}$ "; BJ - Wiley, LA State, 26'2 $\frac{1}{2}$ "; Visser, Bakersfield, 25'6 $\frac{3}{4}$ "; Horn, Ore St, 24'11"; Presber, 24'5"; Shot O'Brien 61'5"; Butt, Striders, 60'2"; Davis 57'11"; Johnson, Oxy, 56'2. HT - Connolly 219'5 $\frac{1}{2}$ "; Pagani 183'; Jongewaard 167'6. JT Voiles, S, 244'10"; Stenslund, Ore Fr, 240'10 $\frac{1}{2}$ ", new frosh and world junior record; Johnson, S, 240'7"; Held 240'6 $\frac{1}{2}$ "; DT Babka 175'1"; Humphreys, S, 168'11 $\frac{1}{2}$ "; Johnstone, North Phoenix HS, 168'2; Lewis, Oxy, 163'8;

Junior College Division: Gross, Sequoias, 160'10"; Clark, Santa Ana, 4:12.3, 9:27.9; Wilson, Harbor, 24'5; Ramos, Sacramento, 46.9; Monroe, Compton, 47.2; Buchanan, San Diego, 47.5; McCullogh, MtSAC, 47.7; Bates, East LA, 9.7, 20.7; Hendrix, Fresno, 14'5 $\frac{3}{4}$ ", national JC record; Overholser, Glendale, 14.4; Belcher, Contra Costa, 1:52.9; Williams, Monterey, 20.8; Ramos 21.0; Perry, Oakland, 23.5;

GULF COAST AAU, Houston, May 23 (rained before meet): Houston T&F, 40.6; Stewart, SMU, 6'7"; Cassell, Houston, 47.2; Emmett, SMU, 47.2; Almond, Houston, 1:52.7; Gary, H, 21.5t; Lawrence, H, 8:57.0; Macy, H, 8:58.2; Clohessy, Houston, 9:07.8; Smartt, H, 9:09.0. Houston 3:14.6, Andrews High School, Texas, 3:16.4;

IC4A New York, May 30: Penn State 46- $\frac{1}{2}$, Maryland 29, Boston 22, Villanova 18 $\frac{1}{4}$, Manhattan 15 $\frac{1}{2}$, Penn 15. 100 Brown, PS, 9.9; Collymore, V, ; Givens, Conn; 220 Collymore 21.0; Ince, Tufts; Brown; 440 - Ince, Tufts, 46.9, MR; Barnwell, Pitt; Edmunds, Princeton; 880 Moran, Penn State, 1:50; Kattermann, P, ; King, PS; Slowik, Y; Carroll, Y; Mile Moran 4:09.3; Close, St. Johns, 4:09.3; Lake, MS, 4:11.6; 2 Mile Englebrink, PS, 9:09; Benjamin, H, ; Kerr, PS. HH Johnson, MD, 14.6; Cohen, Col, ; Reed, Boston; LH Szeyller, PS, ; Salmon, Md; Landau, H, 23.1. Mile R - Manhattan 3:15.0; Villanova; Bay State. BJ - Buckley, V, 25'6 $\frac{1}{2}$ "; Herman, NY, 24'9 $\frac{3}{4}$ "; Glass, St. Johns; Reed, Penn. 23'1 $\frac{1}{2}$ "; HJ - Tait, Md, 6'4; PV Anderson, MD, 13'9; Shot Shine, P, 57'7"; Monkofsky, NYU, 54'3; Marchiony, 53'7 $\frac{3}{4}$; DT - Keerd, BU, 163'8 $\frac{1}{2}$; Ramming, Dart, 161'7; JT Kovalakides, MD, 222'1 $\frac{1}{2}$ "; Schwab, PS, 221'9"; McGorty, Manh, 220; HT Lawlor, BU, 208'8 $\frac{1}{2}$ ", equals collegiate record; Bagdonas, Army, 196'9 $\frac{1}{2}$; Keerd, BU, 188'8; Cross, Y, 172'8 $\frac{1}{2}$; Doty, H, 159'9.

NCAA Small Colleges, Chico, Cal, May 23: Schweikart, LA State, 4:09.7; Kershaw, LA, 1:52.7; Hall, Cal Poly, 9.7, 21.4; Tave, Pepperdine, 24'³/₄"; Verdon, Redlands, 53'3¹/₂".
Triangular, NYC, May 16: Close, St. Johns, 4:09.2, 1:52.7; Levin, NYU, 9:22.9.
NEW ENGLAND INTERCOLLEGIATES, Storrs, Conn, May 23: Lawlor, BU, 208'8¹/₂", collegiate record; Ince, Tufts, 21.2, 46.7; Sinisi, Brown, 14.1; Keerd, BU, 53'3¹/₂;
Missouri Valley AAU, Kansas City, Kans; Tidwell, Kansas, 9.5, 20.7, 22.9; Alley, Kansas, 249'4¹/₂"; Whiteley, KS, 4:08.6; San Romani, Wichita East HS, 4:10.0;
Arizona AAU, Tempe, May 23: Long, SC, 59'10¹/₂" (first time under 60 this year; flu); Rose, AS, 15'; Truex, 4:14.5; Johnston, North Phoenix High, 168'4¹/₂" (177' on 7th throw); Robertson, AS, 6'7; Mal Spence 47.9; Mel Spence 1:53.6;
Manhattan 41 2/3 at Penn State 99 1/3 Engelbrink, PS, 4:11.5; Moran, PS, 1:49.6; Brown, PS, 9.8, 21.4; Weber, PS, 9:21.9; PS 3:13.3; Marchiony, M, 55'6; Schwab, PS, 223'11¹/₂.
Miscellaneous Marks Houston Frosh, 10:02.9 in DMR, national frosh record; O'Brien 62'7³/₄ and 176 plus in Honolulu; Erwin, Okla, 57'10¹/₂"; Collins, Denver, 20.9; Neilsen, BYU, 14'1¹/₂"; Jones, E Mich, 20.9; Gregory, ND, 4:11.9; Reed, Penn. 25'2; Thompson, Md, 25'1¹/₂";
Calif State H.S. Meet, Bakersfield, May 29: Snidow, San Rafael, 176'1; Dunbar, Westmoor, Daly City, 1:53.2; Farmer, Miramonte, Orinda, 48.6, 19.2; Story, Orange, 4:11.0, new interscholastic record; five others under 4:20; Looney, Santa Barbara, 13'8³/₄; Stuber, Bellflower, 6'7¹/₄;
AAU Marathon, Yonkers, NY, May 24: John Kelley, 2:21.54.4; James Green, 2:29:51; Anthony, Sapienza, 2:36:14. Fourth straight win for Kelley.

EUROPEAN MARKS Delecour, France; Hary, Germany; Radford, GB; Batschwaroff, Bulgaria, all 10.3; Zielsinski, Poland, 10.2;w; Rozsavolgyi, H, 3:44.2; Kovacs, H, 3:45.8; 3000m-Ozog, P, 8:07.0; Salvat, GB, 8:07.4; Grodotzki, Germany, 8:08.2; Ibbotson, GB, 8:08.4; Janke, Germany, 8:08.8; 5000m-Szabo, H, 14:04.6; 10,000m-Bolotnikov, USSR, 29:46.8; Sacharov, USSR, 29:48.2; Rumayanzev, USSR, 29:55.8; Szabo 29:56.0; Steeplechase: Rzhishchin, USSR, 8:37.8; Sokolov, USSR, 8:39.8; Ponomaryev, USSR, 8:42.2; Kashkarov, USSR, 6'10¹/₄; Grabowski, P, 25'5"; Schmidt, P, 53'5¹/₂" HSJ; Malcherczyk, P, 52'10¹/₂; Michailov, USSR, 52'5"; Szecsenyi, H, 187'6"; Buchanzev, USSR, 184'4¹/₂"; Rudenkov, USSR, 218'10"; Kolodi, USSR, 210'3¹/₂"; Zsivotzky, USSR, 209'11¹/₂"; Krivonosov, USSR, 205'5¹/₂; Kuznyetsov, USSR, 260'5¹/₂"; Kulcsar, Hungary, 257'8"; Sidlo, Poland, 257'. Valentin, Germany, European record of 3:56.5 for the mile, from Grodotzki 4:02.9, Janke 4:05.6. Consolini 178'5". Meconi, Italy, 60'7¹/₂", European record. Horvath, 14'5¹/₄".

British Games, May 16: Rawson 1:50.5; Kruse, Germany, 1:50.7; Szentgali, Hungary, 1:50.8; Jakubowski, P, 1:50.9; Stracke, Germany, 1:51.1. Valentin, G, 4:00.8; Kovacs, H, 4:02.8; Iharos, H, 4:03.8; Jochman, P, 4:04.3; Brenner, G, 4:04.3; Ibbotson, 4:06.6. 3-mile: James 13:36; Eldon 13:36; Wood 13:42.2; North 13:46.4; Tulloh 13:46.4. HT-Ellis 199'9¹/₂; May 18: Six-miles: Hyman 28:23.4; Norris 23:42; Knight 28:48.4; Sando 28:49.4. Kent-Smith 4:05.3; Anderson 4:05.3; Eales 4:05.9; Berisford 4:06. Disley 8:54.8 St. 2-miles: Ibbotson 8:43.2; Jochman, P, 8:43.2; Valentin, G, 8:43.4; Grodotzki, G, 8:43.8; Iharos, 8:44.6; Kovacs, H, 8:45.4.

BULLETIN BOARD

Next Newsletters June 17, July 1, 15, 29. Track & Field News mailed June 11.

Continuing features in this issue are "Best Marks by Age" by TN Emerson Case and "Best Shot Putters 1948-1958" by Humphrey Long.

Renewal Time is approaching, as most subscriptions end with the last issue of the Volume, which will be the July 29 issue. Your \$6 per year renewal may be sent at any time.

Drake Relays has published an anniversary book, 112 pages on slick paper, entitled "The Drake Relays. 50 Golden Years". It's a honey and well worth the \$2.00. Available from Athletic Business Office, Drake U., Des Moines, Ia. Please mention TN.

AAU tickets are \$2.50 each, may be ordered from William Lam, University of Colorado, Boulder, Colo. Meet starts at 1:30 each day. T&FN will have a small reserved section, just under the press box, and TNs desiring to join the party should mention this when ordering tickets. Do not write T&FN about it.

NCAA tickets are not reserved and there is no need to get them in advance. Meet starts at 3:30 Friday (hammer trials) (5:00, next event); On Saturday, hammer and PV start at 4:30, HJ 5, rest later.

SO THEY TELL US

TN PETER HEIDENSTROM, New Zealand: "Bill Baillie has run and won every New Zealand title from 880 yards to six miles. His best times are 1:52.3, 4:04.2, 13:45 and 28:57.6. In addition he ran the marathon in 2:23:41. Can any of your readers produce a man to beat that? The other day he ran the first half of an 82-mile two-man relay in 3:46:58, which means a marathon in 2:25:20 plus another $14\frac{3}{4}$ miles at the same pace. So far as I know, the fastest 20 miles yet recorded is 1:47:53 by Joe Lancaster of England. Baillie's time at 40 miles must have been at worst 3:36:12, which means two 20s in 1:48:06 each with another mile to run. If Baillie settles down to the marathon he could do just about anything, but he is still too fond of the 880."

TN JOE GALLI, Australia: "Geoff Watt, who ran in your Boston and AAU marathons and did well is on what he hopes to be a 35,000 miles world tour over two years. He will run in Britain, Europe, Japan and South Africa (the Comrades Marathon). Geoff, 26, 5'7 $\frac{1}{2}$ ", and 128 pounds, is a BS in Optometry (it took him eight years). He sports a full, reddish beard, likes to live close to the earth. He has tramped around Australia, carrying his gear. At Portsea he camps out, sleeps in sleeping bag, eats simple foods, including lots of raw oatmeal and raw eggs. Might be considered a "nut" by many people but is a very fine young man. Watt trained on 100 miles a week and worked as a bricklayer's laborer to develop his arms, back and shoulders. Of Boston, Geoff says: 'For years I have looked upon it as the world championship, and I look forward to running in it. I know I'll be happy, because marathon runners are brothers.'"

TN TONY O'DONOGHUE, Ireland: "Reading over some back issues of the Nutsletter produced some interesting observations, particularly in the light of what happened:

"On March 1, 1955, Don Winton wrote: 'Rafer Johnson is really developing. They claim he has only been training a month. Pretty incredible. He's got far more potential than Campbell. His only weakness is that he hates the 1500m. But he has plenty of desire, a come thru ability, and the heart, which is the main essential of a decathlon man. He should break Mathias' record in three years. He should be putting the shot 52' and throwing the discus 170' as well as broad jumping 25' by then.' (Rafer of course got the record within three months.)

"On Dec. 20, 1954, Harry Dawson of Oakland wrote: 'Our idea of taking good quarter-milers and converting them into 400m hurdlers in a few weeks will no longer be good enough. The record will likely be around 49.5 by Melbourne time.'

"Nobody ever seems to have commented on the peculiar result of the shot in the 1912 and 1920 Olympics when 3rd, 4th, 5th and 6th places had exactly the same marks both years.

TN DAVE SHRADER, Kanorado, Kansas: "In 1933-34 I was a freshman under the great Ward Haylett at Kansas State and I broke two school records with 144'7" and 189'6" with 233'3" unofficially. I was awarded a letterman's sweater but the next spring I failed and my dad gave me a lesson in labor on the farm for a year. Then I went to Pittsburg Teachers, Kansas, where I lettered and was conference champ in the discus for four years, 1936, 37, 38, 40 (laying out in 1939 to be eligible in the Olympic year). The old Big 6 conference had a rule allowing freshman to be lettered when they broke school records, but my record of 5 letters at two schools caused the rule to be killed.

"If I had gone to Stanford or stayed at Kansas State and studied I am sure I'd hold the world's discus record today because after I went home I threw 170' consistently for weeks and I was an arm thrower, too, with only $\frac{3}{4}$ turn. Fooling around and being self-taught didn't help, but I figure I threw more discus's more times than anyone probably except Gordien. Four hours a day was customary for me in those days. "

TN BERNIE CECINS, Australia: "I have figured Throwing Strength on a National basis, adding the all-time best throws per country. The results, as of Jan. 1, 1959:

1.	United States	229.50 meters	11.	Czechoslovakia	212.18
2.	USSR	225.64	12.	West Germany	211.66
3.	Poland	222.93	13.	East Germany	211.25
4.	Norway	217.01	14.	France	211.04
5.	Finland	216.61	15.	Esthonia	210.31
6.	Italy	216.38	16.	Yugoslavia	206.91
7.	Sweden	216.29	17.	Rumania	205.97
8.	Hungary	215.70	18.	Bulgaria	205.88
9.	Latvia	213.26	19.	Lithuania	201.92
10.	Great Britain	212.20	20.	South Africa	200.34

TOWERING GENIUS is what California coach Brutus Hamilton calls the super athlete: "Two American athletes have impressed me as capable of reaching the height of the Towering Genius in his event. One was Jesse Owens in the broad jump and the other Rafer Johnson in the decathlon.

Jesse's broad jump mark of 26'8 $\frac{1}{4}$ " established in 1935 is the oldest record on the books. But Jesse was primarily a sprinter and broad jumped with a yawn and only because his team needed points. He didn't care much for the event and never practiced. He gave up amateur track in his 21st year and never took a jump after that. I'm certain in my own mind that Jesse could have leaped at least a foot farther had he taken a few weeks to concentrate upon his event in his prime.

I well remember Jesse's jumping at the Berlin Olympics. He had just won the event after a spirited dual-his third victory. He was buoyantly happy. He was asked to take a courtesy jump for the photographers. The three final jumps had served to warm him up properly. He streaked down the runway, hit the board just right, and sailed out into the pit. The photographers clicked their shutters, the efficient German groundskeeper immediately smoothed out the pit and Jesse without glancing back trotted to the dressing room. I'm convinced that must have been the greatest jump of all times and it was never measured--it must have been over 27 feet. I spoke to Jesse about it after his shower and told him I thought it was his greatest jump. "I wouldn't be surprised" he said. "I felt good, hit the board just right, and thought for a moment I wasn't coming down". It was the last jump of his career.

Rafer Johnson is still very much in competition. His greatest achievements should still be in front of him. He made his splendid records in 1958 despite the handicap of an injured leg which robbed him of at least 600 points which he could have added to his world's record total of 8302. If Rafer can find time to train properly, if he can keep his enthusiasm and avoid injury, the following decathlon marks should be within his reach by the 1960 Olympics: 10.5, 47.5, 4:45, 14.0, 6'3", 13'6", 25'6", 55', 170', 240'. These marks, many of which he has already surpassed in open competition, if made in the decathlon would put him over 9000 points and such a mark could stand for years.

HERB ELLIOTT'S SCHOLARSHIP to an English University has been a matter of conjecture and so the chancellor of the International Olympic Committee inquired and received this reply from Lewis Luxton, IOC member from Australia:

"Elliott is an employe of Shell Chemical, of which I am a director. For some years now it has been the policy of the Shell Group of Companies in Australia and in other parts of the world to pick out young men on their staffs who show promise of being able to carry heavy responsibility in the future and award them scholarships to go to the Universities of Oxford and Cambridge. Elliott, apart from his undoubted ability as a runner, has a first class academic record and has shown every sign of possessing those talents which are so necessary to carry a man to high executive position. It is to develop these later talents that he has been awarded the scholarship--not to further his running or as a reward for what he has already accomplished.

"After receipt of your letter I spoke with Ronald Aitken, who is President of the AAU of Australia, who informed me that his Union sees nothing unusual in any Australian firm awarding a scholarship to one of its own employes with a view to developing such employe's potential. For your own information, I know that Elliott was offered numerous athletic scholarships to American Universities, but rejected all of them as it is his desire to establish himself in the petro-chemical industry as Elliott the executive, not Elliott the athlete. I hope the foregoing reassures you and that you do accept my statement that this is not an athletic scholarship as is known in the U.S."

TEXAS RELAY RECORD is compiled by publicist Wilbur Evans:

Texas has won more relay championships at major relay meets than any other school in the country. 130 wins are divided among Texas (54), Kansas (32), Drake (22), California (10), Coliseum (8), Penn (4). Texas holds as many records at these meets as any two other schools--9 and a share of another. Records are held at five of the six meets. Texas holds the collegiate mile record of 3:09.1; formerly held world and collegiate marks for the 440 and 880 (still has best 440 and 880 times around 2 and 4 turns) (just broke the 440 record again at Modesto); formerly held collegiate records in the sprint medley and shuttle hurdle relay. Coach Clyde Littlefield has been entering Longhorn relay teams for 36 years. Also, Texas has won 27 of the 44 Southwest Conference championship meets and holds or shares 7 of the 16 meet records.

7. STAN LAMPERTBest Performance: 59'5 $\frac{7}{8}$ "

Achievement Points: 58

Stan Lampert of the United States stands in 7th place due to his long career covering nine years of this achievement list decade. This career was mostly an up and down affair with Lampert being overshadowed by Fuchs in his early years and then by O'Brien later on. He placed 2nd in both the NCAA and AAU in 1949 and third in the NCAA the following year. Making a comeback in 1956, Lampert surprised with a 3rd place in the AAU and even placed 5th in the contest for Melbourne places. Two years previous to this the veteran New Yorker had burst into prominence with a 59'5 $\frac{7}{8}$ " put to jolt O'Brien out of world record complacency. This, however, was not a prelude to greater things because Lampert never approached 58' again.

2nd AAU	1949	3 points	2nd World List	1949	9

Puts over 57'	1	1	2nd U.S. List	1954	4
Puts over 58'	1	2			
			6th All-Time World List 1958		15

8. TOM JONES

Best Performance: 59'1"

Achievement Points: 57

Eighth place on our ranking list goes to big Tom Jones of Miami University, Ohio. A short career was highlighted by the fact that in six appearances in NCAA and AAU finals he was never placed lower than third. In fact only O'Brien in the AAU prevented him from gaining both titles in 1954. But after putting 59'1" for a personal best in 1955 Jones, a Negro, turned to professional football and rejected the chance of Olympic honors in 1956.

3rd AAU	1953	1	5th World List	1953	6

Puts over 57'	1	1	9th All-Time World List 1958		12
Puts over 58'	3	6			

11. DARROW HOOPERBest Performance: 57'1 $\frac{3}{8}$ "

Achievement Points: 50

The intense rivalry between Darrow Hooper and Parry O'Brien in the early 1950s was the talk of the shot put world. In NCAA, AAU and Olympic Games they joined battle with O'Brien just getting the edge in most of the contests. The big Texas won the NCAA in 1951 and placed 2nd in the two following years. He never placed higher than third in the AAU but won the Olympic trials in 1952 and went on to get the silver medal at Helsinki in a thrilling duel with his California rival. Less than an inch separated them at the end of the competition. O'Brien must owe something to Hooper for pressing him during the formative years from which he went on to great honors. For Hooper three years of collegiate putting was enough and he bent his energies and interest in other directions just when the future looked so bright.

2nd Olympic Games	1952	8	7th World List	1951	4

1st Olympic Trials	1952	3	2nd U.S. List	1953	4
Puts over 57'	2	2			

9. OTIS CHANDLERBest Performance: 57'4 $\frac{3}{8}$ "

Achievement Points: 52

Otis Chandler of Stanford is another long service veteran of the shot put ring and a pioneer of scientific weight training for the event. A man who has worked hard in the cause of shot put progress, Chandler has a personal best of 57'4 $\frac{3}{8}$ ", his only mark over 57'. Like Lampert, he was overshadowed by Fuchs and O'Brien and never achieved the highest honors, his best being 2nds in the 1950 AAU and NCAA.

10. DALLAS LONGBest Performance: 61'1 $\frac{1}{2}$ "

Achievement Points: 51

The progress of all other shot putters pales before that of the phenomenal Dallas Long. A few years ago no-one had ever reached 60 feet but now along comes a 17-year-old boy to reach 61'1 $\frac{1}{2}$ " in his first season with the 16 pound shot, and while still attending high school. In one year Dallas scored 51 achievement points. He placed 2nd in the AAU to O'Brien and toured Europe where he was second only to O'Brien again. Here is the man to reach 65' or 70' everyone is saying and after his 1958 performances is there any doubt this is so? Long will still be only 20 at the time of the Rome Olympics and as his potential seems unlimited who cannot fail to wonder at what the future may have in store for this talented young man. At least competitions will not be dull with O'Brien, Nieder and Long in attendance.

12. HEINO LIPPBest Performance: 55'8 $\frac{1}{2}$ "

Achievement Points: 49

In the immediate post-war years the only European to place in the world rankings was Heino Lipp, the big blonde Estonian. Due to political unreliability he was never allowed to compete outside Russia so his chances of championship fame were very limited. He set a European record of 55'6 $\frac{1}{2}$ " in 1950 and even surpassed this in the following year by 2" but this was never ratified. Lipp was also an excellent decathlon performer though rather on the heavy side. The Russian's career of six years came to an end just as that of Skobla was starting so in fact the European scene since 1948 has been dominated almost entirely by Skobla and Lipp. Though lacking an opportunity such as other men had, Lipp ranks second among European putters on our ranking list.
