10 YEARS OF TRACK AND FIELD

Part V - The 5,000-3 Miles

By Humphrey J. Long

<u>World Records:</u>	<u>3 Miles</u>	<u>5,000 Meters</u>
1950	13:32.4	13:58.2
1960	13:10.8	13:35.0

Emil Zatopek, the human dynamo from Czechoslovakia, was in a class by himself from the time he first burst upon the athletic world at the London Olympics in 1948. It was probably because of lack of opposition that Zatopek never broke 14 minutes for the 5,000 in the early 1950's. He did come close to it in the 1950 European Championships when he gained revenge over Belgium's Gaston Reiff, the Olympic champion. After trying to "kill off" Zatopek for most of the race, Reiff was himself "killed" on the final lap by a devastating Zatopek spurt. The Czech clocked a personal best of 14:03.0 with Reiff losing second at the tape to Alain Mimoun of France. The time was within five seconds of the world record.

This was not to be the prelude to greater things because in 1951 no one beat 14 minutes for the 5,000. Zatopek and Reiff both enjoyed unbeaten seasons while in Great Britain two youngsters -- Gordon Pirie and Chris Chataway -- began to show great promise over three miles. Better things were expected in the Olympic year of 1952 and the first threat to Zatopek came when Herbert Schade set a German record of 14:06.6 in June. During the same month a great shock came from Kiev, Russia, when two Russians beat Zatopek. It looked like the great Czech had lost his old speed and fire. However, when the chips were down at Helsinki the 28-year-old veteran raced to a record-breaking 14:06.6. Mimoun and Schade were second and third, also inside 14:10, while Chataway got up from the track to finish a tired fifth behind Pirie. Zatopek rounded off the 1952 season with five sub-14:20 clockings in 40 days.

But youth in the person of Pirie had its fling in July, 1953, when he ran the third fastest three miles of all time -- 13:43.4. It was a good effort but still a long ways from Gunder Hagg's record. The 5,000 record came under fire a month earlier when Russian Aleksandr Anufriyev clocked 13:58.8 in Moscow, only six-tenths of a second shy of the world record. An unknown Leningrad runner, Vladimir Kuts, was a poor second in 14:28.8. On Aug. 5 Anufriyev met Kuts again plus Zatopek, who was recovering from sciatica, and Jozsef Kovacs of Hungary. In a fantastic finish, a strong but inexperienced Kuts tried to run away from the others. Only a great sprint finish brought Zatopek the victory in 14:03.0, equalling his best ever. Kuts was second in 14:04.0 with Kovacs third in 14:04.2. Anufriyev was a well-beaten fourth. Pirie again attacked the three mile record on Aug. 1 and came closer with a solo 13:36.4. At the Russian Championships on Aug. 27 Kuts showed further improvement with a powerful 14:02.2, again well ahead of Anufriyev. Pirie improved to a 14:02.6 for 5,000 with a three mile time of 13:34.0 enroute. Kovacs wound up the year by posting a win over Kuts in 14:01.2, the third best of all time, with Kuts timed in 14:04.4.

With the European Championships coming up, 1954 was expected to be better yet and indeed it was. Zatopek started off the season in Paris on May 30 by running a solo 13:57.2 to take a second off Hagg's record and to show himself as a past master of pace judgment. Hagg's three-mile record went surprisingly at the British AAA Championships on July 10 when Fred Green just beat Chataway in a thrilling finish. Both were credited with 13:32.2, two-tenths of a second under the old world mark. Chataway reversed this verdict by taking the British Empire Games title at Vancouver in 13:35.2.

At the European Championships in Bern, Kuts, who had not had a very good season, tore away from the start of the 5,000 final for one of the most sensational solo efforts in track history. At the 400 mark he was three yards ahead in 62.9. At the 800 he was 20 yards ahead in 2:10.4. And so it went with the rest of the field disinclined to follow him. The pace killed off four of the pack and Kuts finished over 100 yards ahead in 13:56.6, passing the three mile in another record breaking 13:27.4. Only in the last lap did Zatopek and Chataway wake up and move after Kuts. It was far too late to do any good but Chataway took second on a sprint past Zatopek with the rest of the field well strung out behind. Just over a month later, Chataway and Kuts met again in London. Kuts set an even faster pace than at Bern and passed the three mile mark in a record 13:27.0 only to be caught and passed by the Englishman right at the tape. Chataway was clocked in 13:51.6, five seconds ahead of the Bern time

with Kuts timed in 13:51.8. Exactly 10 days later in Prague Kuts regained his record with a solo run of 13:51.2, passing the three miles in 13:26.4.

In 1955 the Hungarians came to the fore and distance records began to tumble. But before the Hungarian rhapsody started, Chataway annexed the three-mile record with a 13:23.2 clocking. On Sept. 10 in Budapest the frail-looking Sandor Iharos ran a solo 5,000 in 13:50.8 but eight days later in Belgrade Kuts recaptured his record with a 13:46.8 effort. A month later after this sterling performance Iharos counter-attacked with a smashing 13:40.6, clipping Kuts' best by no less than 6.2 seconds. The three-mile mark also was improved to 13:14.2, a reduction of nine seconds.

The Olympic year of 1956 warmed up slowly but on June 19 at Bergen, Norway, Pirie tailed Kuts until 275 meters from home and then outkicked him for a record-breaking 13:36.8. Kuts also was inside Iharos' record with 13:39.6. However, at Melbourne Kuts showed he was the master by leaving a tired Pirie in his wake as he took the gold medal. He exactly equalled his best of 13:39.6 in this easy victory.

The general all-around standard improved even more in 1957 with more runners than ever beating 14 minutes for 5,000. The British three-mile record was beaten in July by Derek Ibbotson with 13:20.8 but the highlight of the season was again a Kuts solo performance of 13:35.0 to break Pirie's year old record. This came only a week after a near-miss 13:38.0 at Prague. This dispelled all doubts about the Russian's health. During the year 12 athletes broke 14:00 for the 5,000.

The approach of the British Empire Games and the European Championships stimulated running still further in 1958. Albert Thomas of Australia covered three miles in Dublin in 13:10.8 to beat Iharos' 1955 mark. It is doubtful if he ran as fast as Pirie and Kuts in their Bergen battle when no three mile time was taken. New Zealander Murray Halberg won the Empire Games three mile in 13:15.0, beating Thomas by 10 seconds. On a waterlogged track at the European Championships in Stockholm. Europe's best lined up for their championship race without Kuts, who was sick and out of shape. Zdzislaw Krzyszkowiak of Poland beat Kuts' Bern mark to win in 13:53.4, no longer a world record performance but still great running under the conditions. Second in this mud-spattered epic was another Pole -- Kazimierz Zimny -- who established himself as the number one man in this distance in 1959 with Krzyszkowiak out of action. There was a pause in the deluge of record breaking but this is probably only a momentary phenomenon. Rome will see the greatest assembly of distance runners in Olympic history with Kuts' title and possibly his record as the prize for the victor.

THE FASTEST HUMANS ON BOARDS

Part Six of a Series

By Wally Donovan

(Author, All-Time Indoor Record Book)

A crowd of 5,000 was on hand for the first track meet ever held at the Bronx Coliseum. In the past the spacious arena had been used only for midget auto races but in 1941 the Metropolitan AAU senior indoor championships were held there. Five sprinters came to their marks for the final of the 60 yard dash. They were Thomas Carey of the New York Pioneer Club and the defending champion; Ed Greenidge, Carey's clubmate and the Met outdoor champion; Herb Weast, former Columbia sprinter running for the New York A.C.; Jerry Fangboner, New York University; and Herb Thompson, 1939 national indoor champion.

The gun was fired and the five sprinters whirled up the straightaway. The winner was Carey, who defeated Weast by inches. The time of 6.3 cut a tenth from the meet record set in 1923 by Bob McAllister, the man they called "The Flying Cop." But the real story of the race was Thompson, who pulled up lame and finished last. It was Herb's first race after an eight month layoff because of several muscle pulls during the 1940 indoor season.

Thompson's injury kept him out of the Millrose Games. With Ben Johnson, Marty Glickman and Perrin Walker retired from track, new life was brought into the indoor sprint races when Harold Davis was invited to compete in the Millrose Games. Davis, from Salinas Junior College in California, was the U.S. outdoor sprint champion.

The Californian got off to a successful start too. He won his heat in 6.3. Others to take heats were Bill Carter, Hal Stickel and Barney Ewell. Stickel and Ewell were eliminated in the first semifinal by Tom Carey and Dave Lawyer. Davis won his semi from Carter, coming from behind with a great rush. In the final, Davis got a good start but then fell behind

slightly. Then with a tremendous lift that carried him through the tape, he finished inches ahead of Carter with Carey third and Lawyer fourth. Although meet director Fred Schmertz had hoped that Davis and Ewell would meet each other in both the 60 and the 300 it didn't work out. Davis and Ewell won their heats in the 300 but Hal withdrew from the final complaining of a stomach ache. Barney scooted around the boards to win a fast 300 from Stickel in 32.0.

At the 14th annual Seton Hall College meet, held in the Jersey City armory, Ewell won a sprint series from Eulace Peacock, Fangboner, Weast and Fred Wolcott, the national outdoor hurdles champion from Rice Institute in Texas. Later, at the Penn A.C. meet in Philadelphia Ewell was upset in the 50 by unknown Thomas East of Cheney State Teachers. Ewell did not run in the Boston A.A. 50 but the field was a good one. It included Carter, Stickel, Peacock, Davis, Leo Tarrant of Alabama State, Bob Jackson of Princeton and Thompson.

The sprinting started with a meet and Boston Garden record of 5.4 returned by Davis in winning his heat. Tarrant also tied the record in his heat beating Carter. In the first semi-final, the record was again lowered when Thompson ran 5.3 to edge Davis. It was Hal's first indoor defeat. Now everyone was wondering whether Davis, the outdoor champion, could come back and beat Thompson, the indoor king, in the final.

All eyes were on Herb and Hal as they lined up for the final with Tarrant and Stickel. The gun sounded and all four were off like a streak. Davis was not in the race until the last 20 yards. Then, with great powerful strides the Californian closed on the field and beat Thompson by inches. Tarrant was third in a blanket finish as Stickel fell across the finish line.

Thompson and Ewell did not run in the New York A.C. meet and Davis returned to California. Carter won the 60 in 6.3, beating East, Stickel and Lawyer. Thompson's legs seemed to be better and he was ready to face Ewell and Mozelle Ellerbe in the National AAU championships. After the heats, Ellerbe and Ewell eliminated Tarrant and Weast in the first semi. Thompson and Peacock eliminated East. Casualties in the heats were Boyce Gatewood of Texas, Billy Brown of Louisiana State and Carey. In the final, Thompson regained the title he had won in 1939 by beating Ewell and Ellerbe. His time of 6.2 tied the meet record.

Stickel upset Ewell to win the IC4A sprint as Carter finished third. Ewell also lost his broad jump crown, slipping to fifth place. At the New York Knights of Columbus meet Thompson again beat Ellerbe and then closed the season by winning a sprint series in Chicago.

America was at war when the 1942 season opened. Thompson was ranked number one as the reigning indoor sprint king, but he was under constant pressure from Ewell. This was to be Barney's year. Ewell tied the indoor record of 6.1 in the Millrose Games with a win over Thompson, Carter and Jose Bento de Assis of Brazil. After three years of trying, Barney finally won his Millrose gold watch.

Ewell won the 50-yard sprint races at the Penn A.C. and Boston A.A. meets. He skipped the New York A.C. meet won by Thompson over Carey and Carter. In this meet, Stickel pulled up lame in the 60 final.

Thompson and Ewell renewed their great rivalry at the National AAU meet. A large crowd watched the two great stars battle for another sprint title. But this was Barney's year and it turned out to be Barney's night too. He came thundering down the straightaway to win over Thompson by inches in a meet record tying 6.2. Herb Douglas of Xavier was third, de Assis fourth. After setting an IC4A championship broad jump record of 25'2½", Ewell lost the 60 again as he had the year before. This time the winner was Carter, who equalled Ben Johnson's meet record of 6.2.

Thompson got back on the victory trail in the New York Knights of Columbus meet by beating Carey, now a sergeant in the army, de Assis and Lawyer. His time of 6.1 tied in the indoor record. He then went West and tied Johnson's 40-yard record of 4.4 to win the invitation race in Chicago.

(Next Installment -- Ed Conwell makes his debut).
