#### BULLETIN BOARD

Next Newsletters April 20, May 11. Track & Field News mailed May 5.

TN James Powell, a frequent contributor to the Newsletter, is ill in a Los Angeles hospital. Cards may be sent to him at 1708 Alma, San Pedro, Calif.

#### WIND SPRINTS

Texas Relays officials are sure Bill Nieder's 65'7" toss will be accepted as a world shot put record. They said the shot was a half-ounce overweight and that the field was surveyed and found to be level... Nieder made his record put with a borrowed shot. His own implement was being repaired at the University of California after it was found to be an ounce light... Nieder is noted for his appetite but he says he cut down for the Texas Relays. He went to bed at 11:30 Friday night, woke up at 4:30 a.m. after a restless night, read a sports article and got up at 7 a.m. For breakfast he had a steak, three eggs, two glasses of orange juice, two or three slices of bacon and a half pint of milk. At 10 a.m., he ate another steak and a big piece of pie and drank two glasses of orange juice. After the meet he said, "I came out here hungry and I'm starving to death now."... the shot used by Dallas Long for his 64'6½" effort was found to be an ounce overweight. However, the shot used by Dave Davis in his 63'10½" throw was two ounces underweight... Parry O'Brien, who holds the recognized shot mark of 63'4", says he isn't surprised at the great shot performances lately. "Progress is inevitable in everything," he said. "I hope to make a little more progress myself."... Ray Norton, Dave Sime and Ed Collymore will run in special 100 and 200 meter races at the Penn Relays... Olympic broad jump champion Greg Bell has accepted an invitation to compete in the Santa Barbara Easter Relays April 16. Others who may compete in the Eastern Relays broad jump are Henk Visser, Ernie Shelby, Joel Wiley and Bo Roberson. Expected to compete in the shot at the Santa Barbara event are Nieder, Davis and O'Brien... Southern California Coach Jess Mortensen says Dallas Long barely missed serious injury to his throwing hand while the Trojans were meeting California in a dual meet. Mortensen said that Long held a can of orange juice while teammate Bob Shordone tried to jab it open with a javelin and missed. Fortunately, Mortensen said, Long suffered only a slight cut on one finger... Bob Kane, athletic director at Cornell, will be honorary referee and Penn State coach Chick Werner will be meet referee at the Penn Relays... Rafer Johnson plans his first competition of the year in the field events at the Mt. San Antonio Relays on April 22-23. Johnson has been working out three or four hours every afternoon at UCLA, where he is taking graduate work in physical education. However, Johnson still hasn't tested his knee or his back, which was injured last year.

## 10 YEARS OF TRACK AND FIELD

### Part VI - The 6 Miles-10, 000

By Humphrey J. Long

<u>World Records:</u>	<u>6 Miles</u>	<u>10, 000 Meters</u>
1950	28:30.8	29:21.2
1960	27:43.8	28:30.4

Since the end of World War II, two men, Viljo Heino of Finland and Emil Zatopek of Czechoslovakia, dominated the scene in these two long distance events. Heino twice improved the six-mile record and twice held the 10,000 mark. Zatopek also broke the 10,000 record twice and in 1948 won the Olympic title, becoming the first man to beat 30 minutes for this event in the Olympics.

In August, 1950, Heino was not selected to run for Finland in the European Championships for disciplinary reasons although he himself said he was not in condition. With no one to push him, Zatopek ran away from the opposition to record a great solo 29:12.0, a meet record. Zatopek finished more than a minute ahead of Alain Mimoun of France. Zatopek's mark would have been a world record except that just before the championships at Turku. Zatopek had taken almost 20 seconds off the world mark with a 29:02.6 clocking. A sub-29 minute performance looked to be "in the cards" at any time. But in 1951 there was little activity in these events with Zatopek running the 10,000 only three times with a best of 29:29.8. Overall four men beat 30 minutes during the year.

The 1952 Olympic year was opened with a new Russian record of 29:31.4 by Aleksandr Anufriyev when running second to Zatopek. However, at the Olympics in Helsinki, Zatopek took the lead after six laps and was then never headed. His mark of 29:17.0 was another good performance of solo distance running. Five others in the race broke 30 minutes, without a doubt the greatest race to date. Immediately after the Games a 37-year-old Swede, Walter Nystrom, moved to second on the all-time list with a 29:23.8 clocking ahead of Germany's Herbert Schade, who ran 29:24.8. Zatopek wound up his season by being unbeaten in six races.

Anufriyev again provided the opener for the 1953 season with a second best ever 29:23.2, a Russian record. But hard working Gordon Pirie of Great Britain was going great guns and in London on July 10 toured six miles in 28:19.4, well under Heino's 1949 world mark of 28:30.8. Ten men bettered 30 minutes in this AAA Championship race. Later in attacking Zatopek's metric record, the lean Briton ran 29:17.2, only fading in the final stages after being ahead of the world record schedule 2,000 meters from home. A little later, Hungarian ace Jozsef Kovacs set a national record of 29:21.2. Stirred by this activity, Zatopek made an assault on the 6 mile and 10,000 marks at Stara Boleslav, Czechoslovakia, on Nov. 1. Showing an amazing judgment of pace, the Czech reeled off the 10,000 in 29:01.6, passing the six-mile post in 28:08.4 to beat both official records. However, he was even better on June 1, 1954, on a rain-soaked track in Brussels, Belgium. Zatopek became the first man to break 29 minutes for the 10,000 with a 28:54.2. He lapped all of his opponents twice and both of his 5,000 sections were inside 14:28.2, the best time ever run for the 5,000 by Zatopek's immortal predecessor, Paavo Nurmi. The six-mile mark was passed in an official 27:59.2. But close to this success Zatopek lost his unbeaten record in the 10,000 to Kovacs after 38 successive wins. Kovacs' 29:09.0 was the best ever non-Zatopek time. However, Zatopek was back in form for the European Championships and plowed through a drenched Bern track in a solo 28:58.0 to retain his title and set a new meet record. Following the meet, Vladimir Kuts set a Russian 10,000 record of 29:21.4 in Kiev. But this was beaten in May, 1955, by Anufriyev in a 29:10.6 comeback run. Kuts retaliated in August with a solo 29:06.2 followed in October by a 28:59.2. Zatopek himself began to slip with successive defeats in late season and no great timing to repel those closing in on him.

Zatopek, the winner in 1948 and 1952, looked to be out of contention for the 1956 Olympic gold medal. However, there were plenty around willing to take his place on the victory stand. The first man to stake his claim was Australian Dave Stephens, who on Jan. 28, 1956, hit six miles in 27:54.0 to clip Zatopek's record by 5.2 seconds. Europe's best hit back later in the season in determined style. Sandor Iharos, the slim Hungarian wonder runner, made his 10,000 debut a record one by clocking 28:42.8, clipping Zatopek's best by almost 12 seconds. While enroute, Iharos passed six miles in 27:43.8 to erase Stephens' mark. But Iharos 10,000 mark was to be short-lived. Kuts, running under poor conditions, improved

the Russian record in the national championships with 28:57.8 and then on Sept. 11 in Moscow took aim on Iharos' mark. Kuts passed the first 5,000 in 14:08.0 and went on to a 28:30.4. No time was taken at the six miles but there is no doubt the Russian beat the world record for this distance by several seconds. The world's best lined up in the Olympic 10,000 but Zatopek and Iharos weren't in the field. Pirie tried to stay with Kuts but fell victim to the torturing changes of pace lap after lap and could finish only eighth. Kuts won in 28:45.6 and the next three also beat Zatopek's Helsinki record.

Distance running standards dropped in 1957. Kuts had an off season over the long haul and no one in the world broke 29 minutes for 10,000. The following season, Kuts was laid low by illness and could not contest his European title. The 10,000 race in Stockholm was to be the greatest of all time. Some 15 men bettered 30 minutes, the first six improved their personal bests and the winner, Zdzislaw Krzyszkowiak of Poland, beat the meet record with a 28:56.0. The Pole looked to be the logical successor to Kuts but in 1959 was himself knocked over by stomach trouble and did little running. For the second time in three years no one broke 29 minutes or looked likely to challenge the world marks of Kuts or Iharos. It does look as if general standards of distance runner are levelling off after the hectic years following Zatopek's great breakthrough. The story of distance running in the past decade is the story of the great Czechoslovakian runner whose influence upon this section of track and field has been so immense that it will affect runners and running for many years to come.

### THE FASTEST HUMANS ON BOARDS

Part Seven of a Series

By Wally Donovan

(Author, All-Time Indoor Record Book)

The 1943 indoor season may have been Herb Thompson's greatest but it was full of surprises. The season started at the Metropolitan AAU indoor senior championships, which were held outdoors that year on New York University's board track. An NYU freshman from Palmyra, N. J., Ed Conwell, shocked the crowd by winning the sprint race and defeating the great Thompson.

Thompson got his revenge when he handed Conwell the first defeat of his career at the Millrose Games. It came in one of the semi-final races. Later in the final, won by Pvt. Barney Ewell of Camp Lee, Va., Thompson finished third behind Hap Stickel.

The oldest cup in competition was retired by Thompson the following week at the Boston A. A. Games. Herb won the Briggs 50 in a fast 5.4, beating Conwell, Ewell and Stickel. That gave him outright possession of the Major Briggs Trophy, first put up in 1926 and which required three legs.

At the National AAU Championships, Conwell, Coast Guardsman Eulace Peacock and Homer Gillis were all disqualified for false starts in a semi-final race. The other semi went to Thompson with Ewell second. Thompson won the final and his third championship in five years, dethroning Ewell by a full yard. He tied the indoor record of 6.1.

After Conwell's IC4A victory over Harvey Kelsey of Princeton, he met Thompson and Ewell again in the New York Knights of Columbus sprint. Thompson again beat his great rivals. Ewell finished second with Conwell third and Kelsey fourth. Thompson then closed his greatest season still ranked number one with wins in Chicago and Cleveland. However, he knew that Conwell would provide plenty of competition for Ewell and himself in the years to come.

Thompson won only one major race during the 1944 season. He defeated Conwell and Peacock in the New York A. C. Games. Thompson, now in the U. S. Coast Guard, lost his number one rating. The season's honors were divided among Conwell, Ewell and Claude "Buddy" Young, the Illinois freshman football and track star.

Young made a conspicuous debut at the Millrose Games, outracing Ewell as well as Conwell and Thompson. Eliminated in the semis were Peacock, Herb Douglas of Pittsburgh and Herb McKenley of Boston College.

Conwell came back a week later to win his first major invitation sprint, the Boston AA 50. The stocky Violet star beat Ewell by a foot with Young third and Thompson last once again. Conwell tied the meet record of 5.3 shared by Ewell and Thompson.

At the AAU championships, Conwell again showed his heels to a great field. This time the New York University flyer tied the indoor record of 6.1 as he defeated Thompson, Peacock and Ewell. Peacock, one of the most durable indoor sprinters of all time, duplicated

the third place finish he had made in the 1935 meet. Here he was, nine years later, still racing champions.

Conwell won the IC4A championship from Jim Pettit, the Naval Academy halfback, and then lost the New York Knights of Columbus sprint to Ewell. Thompson, after winning this race for three straight years, was third and Peacock fourth. Young whipped Conwell in two races during a sprint series in Chicago at 40 and 55 yards but Eddie came back to win the 50 from the Illinois halfback.

Cpl. Barney Ewell swept all the big races in the Garden during the 1945 indoor season. Thompson and Conwell, suffering from leg injuries, were unable to cope with Barney's speed all season. In fact, Ewell lost only one race and that was to Thompson in the Boston AA meet. Thompson's leg held up for a one-foot victory over Barney in the 50. Thompson tied his own meet record of 5.3 in the semifinal and final as he won this sprint for the fourth time in seven years. Bill Mathis, Washington, D.C., schoolboy star, was third. Conwell, the 1944 winner, was shutout in his heat in which he limped home.

Ewell and Thompson finished inches apart in the New York A.C. 60 as Barney won in 6.3. A week later, Ewell registered a great double at the AAU championships. He repeated his 1944 winning performance in the broad jump and won the 60 after a desperate battle with Thompson in the final. Barney posted a narrow victory over the flying Coast Guardsman.

Thompson and Peacock were disqualified from the final of the New York K of C 60 for two false starts. Conwell, making his first start in a month, scratched from the final. The only one left was Ewell, who won in a walkover in 6.3. The season ended in Chicago as Ewell beat Thompson in a sprint series.

The 1946 season was one that saw Ewell and Thompson go winless as some of the war veterans began to return to track. One of them, Tom Carey, the 1940-41 champion back from Okinawa, won the Metropolitan senior AAU sprint from Peacock, Rudy Nedd and Gillis. At the Philadelphia Inquirer Games, Carey was beaten by Conwell, who seemed to be running well again. In this race Ewell was third and Peacock last.

A capacity crowd filled the Garden for the 39th annual Millrose Games. They groaned with disappointment as Herb Thompson, in his season debut, pulled up lame in the first heat of the 60, won by Paul Cowie of Princeton. Conwell, now running for the Shore A.C., breezed to victory in the second heat over John Van Velzer of Navy as Peacock was eliminated. Carey beat Ewell in the third heat as Gillis and Douglas went out. In the so-called football heat, Max Minor of Army beat Clyde "Smackover" Scott of Navy as Felix "Doc" Blanchard of Army was eliminated. After the semis, Conwell, Cowie, Carey and Ewell took their marks for the final.

The Garden crowd buzzed with questions. Could Carey come back from the war and beat this great field? Will Conwell's leg stand up under the strain? And isn't it about time Ewell won a race? What of this young Cowie? Bullet-starting Ed Conwell supplied the answers. Off at the crack of the gun with one of his celebrated getaways, he defeated three-time Millrose winner Ewell by two feet with Carey third and Cowie fourth. For his performance, Conwell was voted the meet's outstanding performer, the first sprinter to be so honored since Ben Johnson in 1938.

Conwell, now running better than ever, won the Boston AA 50 in a driving finish from Carey, Douglas, Ewell and Thompson. Conwell did not run in the New York A.C. sprint won by Carey, who scored his first Garden victory.

A series of mishaps and false starts at the AAU championships disappointed a capacity crowd which had come to see some great sprinting. Ewell was injured in the broad jump and had to default his 60 crown. Conwell, unbeaten and the favorite, followed Ewell to the sidelines by breaking twice in his heat. Thompson and Army's Dick Newell also were tossed out for false starts in the semi-finals. That left a clear field for Carey, who won his first National senior crown by beating Minor, Richardson (1936 broad jump winner from Canada) and Peacock.

Newell won the IC4A from Minor, Douglas and Gillis and a week later Gillis went on to take the Metropolitan Collegiate sprint title. At the New York K of C Conwell again got a great start and won over Carey, Nedd and Thompson. He tied the indoor record of 6.1. Conwell tied his own indoor record for the 45, running 4.7 at Cleveland. A week later, he won a great sprint series from Ewell, Mathis, Young, Lloyd LaBeach of Wisconsin and Jim Fuchs of Chicago, who later became a great shot put star at Yale. Conwell tied Ben Johnson's 40 indoor record of 4.4 and tied Thompson's Chicago record of 5.2 in the 50.

(Next Installment: More new challengers face Conwell, Carey and Ewell).
