California Track News finds Steve pitching in and doing a variety of tasks. He's a photography bug and has taken many of the pictures as well as doing the developing and printing in the dark room. He, also, helps with the addressing, sorting, and mailing end of the publication and has written many of the articles and profiles in CTN.

Steve is a very active runner, himself. He came to Pacific College from Fresno's McLane High School as a 10:30 two-miler. Last season he clocked a PR 9:29. Steve is an example of what an athlete can do if he is willing to work very hard. Steve likes the longer distances best and hit a 2:38 marathon last year at Mission Bay. Last season Steve, also, won Pacific College's highest athletic award - the Viking of the Year cup, which is awarded on the basis of leadership, not only in athletics, but academically and spiritually as well.

Besides keeping busy helping with CTN he maintains a full load of studies. Runs twice a day, works part time each day in the cardiology lab at Valley Medical Center, and is active in his church

from the editor...

"Winning is everything" - "Do unto others as you would have them do unto you." Do these two statements sound contradictory? How can you defeat your opponent and yet fulfill the Golden Rule? If winning is everything then shouldn't you, if you love your neighbor as yourself, let your opponent win? Should you do less than your best? Is competition right? Should one strive to be better than and to defeat another?

These are good questions and worth thinking about. The athlete needs to be able to put into proper perspective competition, winning and defeat with his feelings towards his opponents.

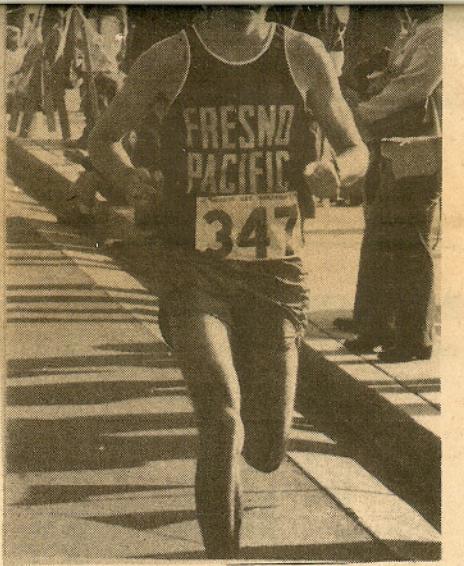

Many athletes feel they must work up a hatred for their opponent if they are to fully defeat him and come out the winner. Others will go to every extreme in cheating and foul play if it will help their chances of victory. The sad thing is that some coaches will often teach young athletes to work up feelings of hostility and the use of methods of cheating. They say "winning is everything" and feel justified if that's what it takes.

I would like to propose a new definition of winning. We've adopted this at Pacific College and found this new definition of winning eliminates the contradiction between winning and the golden rule. The two become united and work together. The standard definition of winning is merely the defeating of your opponent no matter what type of effort was put forth, while losing is being defeated by your opponent no matter what kind of effort was given. The new definition of winning disregards the outcome of the contest in favor of examining the actual performance itself. Did the participant do the very best that he could in that particular contest? Was he properly prepared? Did he have the right mental attitude? Was he tough? Did he persevere? Or, did he loaf in training? Did he have a bad mental attitude? Did he give up when behind? Essentially: did the athlete do his best? If so then he was a winner no matter what place he finished. In the traditional sense

hostile toward an opponent or to resort to cheating. In the Ancient Olympics the race didn't always go to the swiftest but to him who combined speed, effort, form, and improvement.

Should we just eliminate competing against each other, then. Certainly not! The coming together for competition against others is very worthwhile. The contest against another provides a chance to experience similar things in striving for the same goal. This provides a common bond and is fertile ground for the development and growth of friendships. Competition also provides an opportunity to evaluate and compare ones performances to previous and future performances by himself and others. The competition provides a motivation to excell and serves as a climactic expression of the preparation. The competitive contest gives a chance to try oneself and by being against others, and often in front of others (spectators) it puts our efforts on stage for all to see and judge.

But, should we do our best in attempting to be first at the expense of others placing only second or third or being last? Yes! - your doing your best will help bring out the best in others and make them winners also even though you may have beaten them. If you were not to do your best your opponent could win with a sub-par less than his best effort and you would both be losers. You can help your opponent be a real winner by forcing him to do his best to beat you or come as close as he can. Additionally, doing your very best against an opponent is the most loving thing you can do for him. That way when he does beat you or comes close to it he will have the full and complete satisfaction of knowing that at that time he came out ahead and was the victory or gained. A friend once taught me how to play chess and he would, naturally, beat at every game. As I improved I took great

McLane High School as a 10:30 two-miler. Last season he clocked a PR 9:29. Steve is an example of what an athlete can do if he is willing to work very hard. Steve likes the longer distances best and hit a 2:38 marathon last year at Mission Bay. Last season Steve, also, won Pacific College's highest athletic award - the Viking of the Year cup, which is awarded on the basis of leadership, not only in athletics, but academically and spiritually as well.

Besides keeping busy helping with CTN he maintains a full load of studies, Runs twice a day, works part time each day in the cardiology lab at Valley Medical Center, and is active in his church (Friends Community Church). After completing his education he plans to work in medicine or public health where he hopes to help other people better their lives physically, mentally and spiritually..

how far do you REALLY go?

Jogging is a healthy sport. Now you can measure the distance you jog, precisely to the tenth of a mile. With this digital pedometer. 3 digit display easily registers up to 99.9 miles. Pedometer adjust for your stride in 1/3-ft. intervals from 1/3 ft Great for hikers, campers, joggers, and even time study tests. Compact black plastic case weighs only 1 1/4 oz. Comes with auto. reset button, belt-clip, loop chain and ring. 1 1/4" square. \$14.95 ppd. Money back guarantee. Quantity rates available. Send to: Global Import Co., Box 246, El Toro, Cal. 92630. ON THE COVER: Senior Track Club's Bill Fitzgerald recently turned 50 and has been burning up the records.

The standard definition of winning is merely the defeating of your opponent no matter what type of effort was put forth, while losing is being defeated by your opponent no matter what kind of effort was given. The new definition of winning disregards the outcome of the contest in favor of examining the actual performance itself. Did the participant do the very best that he could in that particular contest? Was he properly prepared? Did he have the right mental attitude? Was he tough? Did he persevere? Or, did he loaf in training? Did he have a bad mental attitude? Did he give up when behind? Essentially: did the athlete do his best? If so then he was a winner no matter what place he finished. In the traditional sense of winning only one person can win a race or one team a title. But with this new approach to winning every person competing can come away with the feeling of being a winner and personally being victorious on that occasion. This could also mean, then too, that he who comes in first might end up a loser in these terms. What it boils down to is that we can all be winners in athletics no matter how high we place if we are giving our very best. The end result isn't as important as the process of trying to achieve it. Afterwards the outcome will be of little importance compared to what happened on the way there. This will eliminate the need to be

them winners also even though you may have beaten them. If you were not to do your best your opponent could win with a sub-par less than his best effort and you would both be losers. You can help your opponent be a real winner by forcing him to do his best to beat you or come as close as he can. Additionally, doing your very best against an opponent is the most loving thing you can do for him. That way when he does beat you or comes close to it he will have the full and complete satisfaction of knowing that at that time he came out ahead and was the victory or gained. A friend once taught me how to play chess and he would, naturally, beat at every game. As I improved I took great pride in occasionally being able to surprise him and make a good move and played hard for the day when I would possibly beat him. Once however, I could sense that he was letting me win. I did win, but it was no victory to me. There was no satisfaction. It ruined the game. He cheated me. If I were to win it wouldn't be meaningful unless we were both doing our best. We owe it to our opponents to do our very best against them, otherwise the contest has no meaning.

So, everyone can be a winner by giving his best. You owe it to your opponent to be this kind of a winner. Winning, then, is everything and is even loving your opponent at the same time.

CALIFORNIA TRACK NEWS \$3.50 per year

Track & Field News

For over 25 years, we've served the track community: the leader in book and periodical publishing, track merchandise and accessories.

1 COUNTDOWN TO MONTREAL. The Olympic year is underway, and the best way to keep informed, of course, is by reading TRACK & FIELD NEWS, still America's only publication to deliver all the major news and excitement of the sport, from high school track through the Olympics—from all corners of the USA and the world. While our focus is still on men's top-caliber competition, each monthly issue covers all aspects of track (women, masters, road racing, training tips, etc.). At \$9.00 a year, it's money well spent. Write for sample.

2 Have you seen our fast-selling t-shirts? Colored t-shirts include KEEP ON TRACKIN' cartoon shirt, ROAD RUNNER cartoon, and the adidas shirt. White shirts with colored trim are USA, MOSCOW 80, the RUN RUN RUN cartoon shirt and our new TRACK & FIELD NEWS shirt. All t-shirts are available in sizes S,M,L, and XL at \$4.50 each, plus 50¢ per order for postage. All top quality 100% cotton shirts, machine washable.

3 Our new jumbo track posters have been extremely popular. Rick Wohlhuter, Ben Jipcho, Dwight Stones, Steve Williams, Tony Waldrop, all in full color. Still available are color posters of Shorter, Prefontaine, Wottle, and Ryun/Keino. All color posters are \$2.50 each. Add 50¢ per order for postage and handling.

4 T&FN is still the foremost publisher of books on track and field. Recent titles are *The Little Red Book* (with Metric Conversion Tables and a goldmine of information on the sport), \$2.95; *Corbitt* (story of Ted Corbitt, pioneer long distance runner), \$3.95; and *Age Records 1975*, \$2.00. Write for complete booklist.

5 Coaches: keep up with the latest in technique and training. Read *Track Technique*, the Quarterly Review of Track and Field Athletics. Emphasis is given to easy-to-follow, immediately applicable material for your day-to-day coaching needs. \$4 a year. \$10 for three years.

Write for our complete catalog of books, films, the amazing new electronic stopwatches, jewelry, tours, and other track and field merchandise and equipment.

records as possible. He plans to continue competing as long as he can break 11.0 in the 100 because, "Track is one of my big things and has been a part of three fourths

spotlight on:

CYNDY POOR: San Jose Cindergals. Age 22; 5 feet, 4 inches; 115 pounds. Born May 18, 1953 in Hanover, New Hampshire.

Best Marks: 400 meters- 55.7 (73); 800 meters- 2:03.8 (75); 1500 meters- 4:11.8 (75); Mile- 4:43.8 (75); 3,000 meters- 9:24.1 (75); 2 mile- 10:53.2 (74). Coached by Augie Argabright.

CTN: How long do you intend to continue competing?

Poor: That is hard to say - who knows?

CTN: You said you are going to school - what are you studying?

Poor: I attend San Jose State University. I am a senior and a physical education major.

Cyndy Poor

CTN: Can you tell us why you participate in track?

Poor: I enjoy the rewards of traveling and meeting many people as well as improving as an athlete. All of us have a God given talent in somehow or another - whether it be musical, artistic, athletic, etc. But it is not whether someone has more than some and less than others but how much one puts into his talent. I enjoy working hard to improve myself.

CTN: Your club has had a lot of success.

shirts are available in sizes S,M,L, and XL at \$4.50 each, plus 50¢ per order for postage. All top quality 100% cotton shirts, machine washable.

PRO

Percy Knox

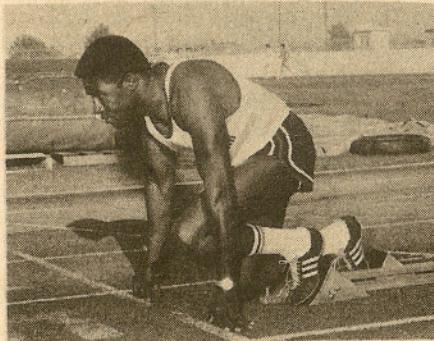

PERCY KNOX: Corona Del Mar Track Club. Age 41; 5 feet, 10 inches 170 pounds. Born October 28, 1933 in Selma, Louisiana. Also competed for Franklin High School in Seattle, Washington, and the US Air Froce.

Best Marks: High School (1953): 5.4, 9.8, 21.7, 49.1r, 22-7. Air Force (age 22-26): 5.3, 9.5, 21.1, 49.9, 24-2 Sub Master: 9.9 (71) age 38 record, 9.9 (72) age 39 record, 22.8 (72) age 38 record. Master: 9.9 (74) age 40 record, 22.3m, 9.8 (75) age 41 record.

If you follow the Masters track scene one name you must be familiar with is that of sprinter Percy Knox. At age 41 Percy is beginning to find that success he once enjoyed as a much younger athlete. His favorite event is the 100 yard dash where he holds numerous age records. He tries to compete at least three times a month but gears his racing for a peak at the Senior Olympics and the AAU. He was concentrating on hitting a 9.7 this year but had to settle for a still outstanding 9.8 when injuries ended this season. He will, however, be back trying to win the big ones and better as many 100 yard dash

records as possible. He plans to continue competing as long as he can break 11.0 in the 100 because, "Track is one of my big things and has been a part of three fourths of my life."

In 1956 he pulled a muscle in Hawaii which continued to plague him over the next few years so in 1963 he retired from track. In 1968 he ran the 100 for the first time in five years and clocked a 10.5. He

continued to compete off and on until 1972 when he joined the Corona Del Mar Track Club and once again became a serious track competitor. The Corona Del Mar (40-49) 440 and 880 relay teams are undefeated in 22 starts during the 1974. and 75 seasons. Best Marks: 44.7 (Shirley Davisson, Dave Jackson, Phil Schlegel, Percy Knox) at the Masters Nationals in 1974. 1:34.9 world record (Dave Jackson, Don Cheek, Ken Webb, Percy Knox) at the Cal Relays 1974.

Training: Always warm-up with slow mile and lots of stretching. **Monday:** 220-270 yards (3-6), 330-370 (2), weights. **Tuesday:** 110-160 yards (8-10), 220-270 (2). **Wednesday:** 220 yards (3-6), weights. **Thursday:** warm-up only. **Friday:** rest. **Saturday:** track meet. **Sunday:** 220-270 yards (6-8), 110-160 (3-6). Sore achilles will not allow practice starts.

past season (1975) she won the Pacific Association 400 meters (55.9) and placed fourth in the Senior Women's Nationals 1500 meters (4:17.2). Cyndy also became an international runner this year by competing for the American team in the International Cross Country meet in Rabat, Morocco.

CTN: Having found success at events from the 400 to cross country do you have a favorite?

Poor: I really enjoy running either the 800 or the 1500.

CTN: Is there any special strategy you like to use in your races?

Poor: A lot depends on what I'm running and other factors as to whether I go out hard at the start, in the middle, or at the end- or hopefully all the way. When running against good runners it is important to stay with the runners in order to be in the race and not lose contact with them. I consider myself to have a pretty good kick to finish up a race.

CTN: What about peaking your performances for important end of the season meets?

Poor: I train hard pretty much throughout the season and through most meets. It depends on the importance of the meet as to how much rest I will take before that competition. Basically I train through most meets, working toward Nationals.

CTN: Do you follow any specific training rules?

Poor: I have no strict regimented rules but do try to be aware of the right foods to eat. With all of the stress that I put on my body I supplement my diet with vitamins. I work on trying to get a good night's sleep and between working part time, going to school and training twice a day it isn't too hard to fall asleep.

CTN: After your most successful year what are your immediate track goals?

Poor: It has been a satisfactory year, what with making the International Cross Country Team, placing fourth in the track Nationals and touring Europe on my own. Now I am working toward a good distance background in preparation for the coming cross country season. It would be nice to make the International team again. I think they will be going to Italy next time.

CTN: What about the Olympics?

Poor: Of course I would like very much to compete in the 1976 Olympic Games in the 1500 meters and I will be having that goal in the back of my mind as I compete this year.

CTN: Your club has produced quite a crop of distance runners. Can you tell us a little about the San Jose Cindergals?

Poor: I have belonged to the Cindergals ever since I started track in 1970. I enjoy the team very much and think it is one of the best middle distance clubs around - a lot having to do with one of the best middle distance coaches - Augie. We have been expanding a lot as a team, too, as we have gotten more coaches and have added field events.

Although many people think that track is an individual sport - athletes who function together as a team are going to help each other. That's why I enjoy working with the Cindergals. Everyone helps each other in every way. And, Augie is so understanding and takes pride in each of his girls. We have many good athletes on the team but one who has helped me a lot these past couple of years has been Judy Graham who just recently returned from a USA AAU tour of China.

CTN: Can you give us an idea of what your training is like?

Poor: It's hard to say what is typical but in general this is the pattern we follow. A lot of course, depends on what race I have for the weekend. **Saturday:** Race. **Sunday:** Long over-distance run. **Monday:** longer type intervals. **Tuesday:** Overdistance run. **Wednesday:** shorter type intervals. **Thursday:** Overdistance run. **Friday:** Speed or easy run or rest.

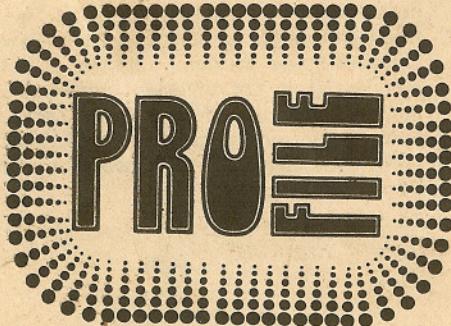

I feel it is also important to do exercises along with my training. I do sit-ups and push-ups for strength and off season weight training.

We have such a good variety in locations for different workouts. We have nice parks, parks with good hills, nice scenery, as well as an all weather track with many grass fields around. It makes for a nice change to run in different spots.

Kent Guthrie

by: George Moss

KENT GUTHRIE has emerged as one of the quality veteran runners of Northern California in the past two years. Soon to join the over-40 ranks, he will be competitive with the best of what is unquestionably the finest group of Masters runners in the country.

Kent is having his best year in 1975, both on the roads and on the track. In 18 road races, he has finished 11th or better 14 times. His best effort was a 30th place finish in the prestigious "Bay-to-Breakers" race in a time of 41:17 for the 7.6 mile course. He has turned in some fine performances on the track also. At the Western Regional A.A.U. Masters Championships, Kent won the 5,000 meters in 15:58, tying the American age 38 record. Three days later, he set a new American age record at 2 miles in 9:53.6 in an All-Comers meet!

His favorite track race is the two mile. On the roads, he prefers a tough, hilly course of about 15 miles. Good at both kinds of racing, his first choice is track racing since he likes the intense running at shorter distances. He plans to continue both indefinitely but will lay off the roads to prepare for important track races.

Kent's training is mostly on the roads. A typical week will include two runs of 10 and 15 miles, and a track work-out one evening. Repeats of usual racing distances (one mile, (1 mile of 110's, one mile of 220's, etc.) He likes to race frequently, averaging about three races a month.

His immediate goal is, in his own words: "To improve enough to offer Darryl Beardall some competition as a 40 year old in 1976." His long range goal is to compete successfully in National Masters Championships.

Jeff Zimmerman photo

Perhaps the most impressive achievement of this quiet, intense man is his development into a world class veteran runner without a background in Open competition. Kent did not run in high school or college. He ran his first race since grade school in 1971 and was rather casual about his approach to the sport until 1973 when he met Jim Shettler, the top veteran NOR CAL runner, who introduced him to serious training and racing. He is still improving, and given his talent and determination, Kent Guthrie has the making of a champion.

Statistics:

Ht. 5'10", Wt. 150 Occupation: School Teacher. AAU Affiliation: West Valley Joggers and Striders. Best times in 1975:
1500M 4:17
2 miles 9:53.6
5000M 15:58
6 miles 31:15 (road time)
In 1974, he ran 20 miles in 1:56 and a marathon in 2:46.

Coach (Australia)

CALIFORNIA TRACK NEWS

BEST MARKS: 330 yd. low hurdles 38.2; 120 HH -15.1; 440 - 51.2; long jump 21'7"; competed twice in triple jump - 42'; coached by Bruce Smith and Brian Waterbury.

All around track man Cliff Morris has been the iron man on the SLO high school team by competing in four events each meet. When Coach Smith wants extra points or wants to deny points to the other team, he asks Morris to "Give it a try." On-call Morris has run on the mile relay and 440 yd. relay teams and has competed in every event from the 100 yd. dash to the 440.

A Letterman in basketball with a solid "B" average, Morris would like to go on to a college that offers a Business Administration major and compete in the 440 intermediate hurdles plus give the 880 a try. This summer he hopes to learn the art of pole vaulting and parlay this skill and his unusual shoulder strength and balance into a shot at the decathlon (Morris can walk considerable distance on his hands and easily does 40 pull-ups).

Last year Morris won the coveted Booster Club MVP trophy in track for scoring more points in competition than anyone else in the recent history of the school. This year he will almost double his point total of last year.

Typical Week's Workout besides running cross-country before and through basketball season: Since Coach Waterbury and Coach Smith believe in quality workouts rather than quantity, the week's workout would be: Monday - after warmup Cliff's practices vary between 4 hard 660's, 550's, and 440's in times of 88 to 90 seconds, 67 to 70 sec., and 440's at 52 sec. or better. Tuesday - 3 to 4 mile job to loosen up and then starts and technique work over HH and LH. Wednesday - short and hard with 4 to 5 220's over low hurdles. Thursday - similar to Tuesday. Friday - short jog and stretching, loosening up in preparation for Saturday meet. Sunday - jogs 3 miles and plays tennis.

Terry Cotton

TERRY COTTON: Grossmont Junior College (graduated 1975). Age 21; 5 feet, 9 inches; 145 pounds. Born August 7, 1954 in Boise, Idaho. Also competed for El Cajon Valley High School.

Best Marks: 880- 1:54.0; Mile outdoor- 4:05.4; Mile indoor- 4:07.5; 2 mile outdoor- 8:43.6; 2 mile indoor- 8:48.6. Coached by Bob Larsen.

Griffins four lap standard is 4:03.6 set by Ed Mendoza in 1973. Terry, however, will get another chance to go after Ed Mendoza's school records - this time at the University of Arizona where they will be running together next season.

Terry set a national record in the junior college two mile (outdoors) and tied the indoor mile mark as well as running on the Grossmont four mile relay quartet which clocked a 16:59.2 national record.

Although he had a very successful 1975 track year Terry was really just getting started again after being sidelined with injuries and then the season was over. In fact Grossmont coach, Bob Larsen, feels injuries have been Terry's major limiting factor in his track career: "Terry has unlimited ability but has been plagued by injuries both in high school and at Grossmont College. The problem has centered around his lower left leg and this season an additional strained calf muscle. We thought we had the problem solved this year by having Terry wear plastic inserts in his shoes fitted by Dr. John Pagliano. He encountered no pain in his shin area with the inserts but a little irritation in the knee area caused him to remove the inserts and probably contributed to the calf strain as his heel was then dropping lower. He is now doing special exercises to strengthen that area and I think that in the future his determination will pay off and we will be able to see an injury free Terry Cotton who will produce some amazing results. Terry's injury problems and his patience with them closely parallel the problems and attitude of Ed Mendoza."

The life time best of 4:05.4 came in the Southern California Championships where he kicked in a 57.4 final 440. His favorite racing distance is the two mile, but Coach Larsen feels his best distance could be the three mile. When asked about goals Terry felt he'd find satisfaction with a sub four minute mile and a national class performance at 5000 meters. He enjoys the competition aspect most in track and likes to compete about every two weeks. His favorite competition strategy is to save just enough during a race to put on a killing sprint at the end.

As for workouts he will usually alternate interval and road run days with Sunday left for an extra long run. Next year he will be a junior engineering major at the University of Arizona.

FEET FIRST

FROM YOUR RUNNING PODIATRIST

Running injuries appear to be secondary to three major causes. The first cause is that of improper training; the second cause is that of improper conditioning; the third cause is that of biomechanical abnormalities and deformities of the lower extremities. We will be spending a great deal of time in the future talking about biomechanical problems such as bowleggedness and flat feet as they relate to running injuries. I would like to take this opportunity to discuss those problems secondary to improper training. The topic of conditioning will also be handled in further articles.

It's important to realize that training consists of gradual adaptation of the body to stress. Thus when you train you are training your body to accept stress. Too much training leads to too much stress and too much stress leads to injury. These injuries are called the overuse or overstress injuries. Examples of overuse or overstress include; runner's knee, shin splints, arch fatigue, and pulled muscle as well as stress fractures.

The most common problem I see in violation of good training principles is the runner becomes excited with the recent progress in racing and decides to increase his mileage, increase his speed, and get

ready for that big race. He increases his mileage from 24 miles a week to 40 miles a week and increases his running pace from 8 minutes per mile to seven minutes per mile in the course of two weeks. He allows himself no rest period and runs every day and eventually notices that his muscles are getting sore, the knees begin aching, the feet hurt and he is tired all over. Despite this he continues to push himself until finally something gives. He has crossed over that fine line that separates the fit athlete from the athlete who has passed the **brink of disaster**. There is a fine line between being finely trained and being overtrained. Obviously an athlete can not expect to double his mileage over night without getting hurt. The body just isn't ready to accept the increase stress.

Proper training should include periods of rest following hard workouts. It takes approximately 24 hours to recover from a hard workout and it may take from 6 to 8 weeks to recover from a marathon. Common sense is necessary. I find that I train best when I do one long run followed the next day by a shorter run. Thus when I am training for a marathon I will average 9 to 10 miles a day but do 9 to 10 miles one day and perhaps 6 miles at an easy pace

STEVEN I. SUBOTNICK, D.P.M., M.S.

Executive Secretary of American Academy of Podiatric Sports Medicine.

the next day, then go back again and do 13 miles at a harder pace and then 5 miles at an easy pace the following day. Along with this I do a liberal amount of yoga type stretching exercises. Of course I wear foot supports or orthotics during all workout sessions to prevent those overuse syndromes associated with abnormal foot function.

It is a good idea to combine a small amount of speed work with distance training when getting ready for racing. I like to do fartlek as well as intervals about once a week. I don't get overzealous with this type of speed work but I find it sharpens me up in my overall running. I am certainly not a great runner but those friends of mine who are inform me that they derived a great amount of benefit from speed work combined with distance work.

What are some other common sense approaches to running? The runner who trains on the flat and races on the hill will get hurt. Obviously you must gradually adapt to hills if you are accustomed to running on the flat. The runner who is used to long slow distance workouts and switches over to speed work without very carefully warming up and gradually

getting adapted to increased speeds may again get hurt. The runner who uses high heeled shoes all day long at work and runs in no heel or low heel shoes may again suffer a strain of the muscles of the back of the leg. The runner who races every weekend without a rest will sooner or later be hurt.

Doctor George Sheehan advises us to listen to our bodies. This is good advice! When your body feels tired and your run just isn't up to par it's a good idea to slow down your pace and take it easy. When your body feels good then go at it with a hard workout. When you have injury it's best not to run through it but to take a rest until you heal up. Using a common sense approach to running you should expect many many years of happy exercise. When you do not allow your body to adapt to stress you will suffer the consequences with overstress injuries.

Doctor Jeff Stone and myself are both Podiatrists who run and we will be answering your questions concerning running injuries in future articles in California Track News. Please feel free to address letters to the editor to either Doctor Stone or myself and we will do our upmost to serve you. Happy running.

Diane Johnson photo

CONRAD SUHR: Leigh High School. Age 18; 6 feet, 2 inches; 160 pounds. Born February 21, 1957 in San Jose.

Best Marks: 100- 10.5; 220- 23.5; 440- 48.7; 880- 1:51.0; Mile- 4:13.4; 2 mile- 9:24.4; Long jump- 19-7. Coached by R. Homer Latimer and Bill Hotchkiss.

Conrad Suhr, the 1974 Central Coast Section mile champion, switched his event to the 880 in 1975 and it paid off big with the State Meet title. Conrad also peaked his performance for the end of the year California High School Meet and ran his life time best of 1:51.0. Although going for a maximum performance at the State he still managed to chalk up wins in the league 440 and 880, the regional 440 and

PRO

Conrad Suhr

880 and the section 880. He now holds the Leigh High records in the 440, 880, and mile.

Conrad's favorite event is, understandably, the half mile and he runs it best when he can hang on within 15 yards and then "kick." Next year he will be enrolling at UCLA as a business major and has his goals set at the Pac-8 and NCAA titles before finishing as a Bruin. Nine to ten hours of sleep every night is important as is a daily dose of vitamins B, C, and E.

The competition and recognition are what Conrad likes best about track. He also stated, "I like to succeed in everything I do and am always learning in track." He is quick to admit, "I've been very lucky, the coaches at Leigh High have been great and have contributed greatly to my track progress."

Typical Week's Workout: Late season. **Monday:** 2 mile warm-up with lots of stretching and build-ups, 4X440 at 55-57 (220 jog rest), 12X220 at 25-26 (220 jog rest), 2 mile warm down. **Tuesday:** 5-8 mile road run, stretching and bending, 5X220 at 25-26, 5X110 fast, cool down. **Wednesday:** 2 mile warm-up with stretching and bending, 1X660 fast, 9X330 at 40-42 (220 jog rest), 6X110 fast, cool down. **Thursday:** 2-3 miles of easy striding, stretching. **Friday:** Competition. **Saturday:** Competition. **Sunday:** 5-7 miles.

CROSS

Well, another cross country season is upon us. The 1975 harrier outlook is as thrilling as ever. With the help of many of the coaches throughout the state California Track News has pieced together a partial pre-season high school cross country preview. Of course, things never turn out as predicted (that's part of the excitement) but it is still fun to look ahead and see what very possibly could happen.

In Northern California the North Coast Section champion and super-runner Roy Kissin of San Ramon (member of 1975 AAU Junior International Cross Country Team) has graduated as has his "shadow" Dan Patterson of Del Valley High. In the Contra Costa area the teams to watch are East Bay Athletic League's Livermore (NCS finalist last year), Diablo Valley Athletic League's Mt. Diablo and College Park. Others that could upset are Pleasant Hill which just lost the NCS Frosh-Soph title by an eyelash last season; the Foothill League champion, Miramonte; defending East Bay champ San Ramon; and up and coming Campolindo.

To the west in the Alameda County-Hayward area Newark could have a great season with all hands returning from a very successful Mission Valley League championship squad. Washington of Fremont will be a strong factor as will be Alameda. Castro Valley, number three in NCS last year, will not be as strong this season yet will be one of the better teams

individual champion, and three of his teammates from Lynbrook's championship team. Individual returnees in the FAL are Lynbrook's Stewart, Fremont's Copperwaith, Sunnyvale's Hernandez, Monte Vista's Nicklin and Cupertino's Wright. Team strength seems to be shifting this year from Lynbrook and Homestead to Monte Vista, Cupertino and Sunnyvale. The FAL championship could very easily go down to the seventh man. Pacific Grove of the Mission League and Leigh of the West Valley League will again have to be considered prime contenders in the CCS championship meet.

In Southern California there's going to be some real excitement as the season unfolds. Some Southern Section action: Looking first at the Orange County; Costa Mesa with Ellis, Hawkinson, Thompson, and Young all under ten flat on the Orange County course should dominate the Century League. Corona Del Mar led by Jeff Day and El Modena led by Chris Money should provide the toughest competition. The Enterprise League should be a two team battle between Foothill and Huntington Beach. Foothill has the top two individuals in Mark Spilsbury and Greg Gerich. Huntington Beach will depend on three "All County" runners, Calvano, Harrell, and Gifford. Foothill will back Spilsbury and Gerich with Toberty and Way who were also "All County." The Freeway League looks like a

contenders. Santa Barbara will be paced by dynamic George Aguirre - they lost the dual meet to Dos Pueblos last year by only one point.

The Suburban League favorites will again be paced by Gahr and Artesia. Jim Arriola was injured last year and will lead an experienced Gahr contingent. Artesia will have a lot of younger kids but they were third in the national postal 10 mile frosh team race last year. The Rio Hondo League should again be in the hands of CIF champions San Marino. In the Citrus Belt League San Gorgonio and Chaffey have dominated for the past few years and are expected to battle it out again. Top individual could be Chaffey's defending league champion, Tim Mattison. The San Antonio League will be between always strong Upland and Claremont. Upland has lost league champion Mark Sorenson but retains their depth. Mike Roza of Montclair and Mike Boetcher of Pomona will provide plenty of individual highlights. The Hacienda League also appears to be a two team race between Walnut and defending champion San Dimas. Joel Hope of Alta Loma is the defending league champ and he's just a junior. He holds the CIF Frosh-Soph mile record and as a soph recorded 4:21-9:44 double. Other individuals going after Hope will be Scott Carter of Walnut, Doug Moore of Royal Oak, Mike Greene of Bonita and Perry LaMont of San Dimas.

The Los Angeles City Section should be

for a University High Western League title. Palisades with Woodson, Westchester with Scholzman and Venice with Hornish will be pushing. Poly and Sylmar will fight it out for the East Valley League. The individual race will be between Heide and Scobey (Hollywood), Maynez and Apuzzo (Sylmar) and Esquivel (Poly). Kennedy and San Fernando will go after the Mid Valley League crown with Wendler of Granada Hills and Bernstein of Monroe joining the others mentioned above for honors individually. Taft and Chatsworth are no doubt the West Valley League favorites. Simenz will lead Taft with Siemen the main gun for Chatsworth. They will be joined at the front by Harmon of Reseda and Weinstein from Canoga Park.

Here's a preview of the action in the Central California Section: Central Section champs Madera High will count heavily on their only two returnees, Lawrence Carranza and Jose Renteria, to defend the North Yosemite League title. Pishone and Muniz will pace a strong Clovis attack and Bullard can't be overlooked as they won frosh soph last year. Ketner from Fresno, Valentine from Roosevelt, Lowe and Esquivel of McLane will be individual contenders. Dos Palos has been building a strong team under new coach Keith Jeffers and are the pick in the North Sequoia League. The West Yosemite League looks strong and well balanced against this year. Defending champs Reedley have a new coach in Roger Trujillo and return six of their top seven. Look for Hanford and Mt. Whitney to push. Individuals will be Jesse Lopez of Reedley, Hector Garcia of Redwood, and Pedro Medrano of Sanger. Wasco is the defending South Sequoia League champion, and although they lose Central Section champion, Sammy Garcia, they retain five of their top seven and pick up age group standout Todd Knox. Corcoran and Shafter would like nothing better than to knock off Wasco and will have a run at it. Top runners could be Wasco's Lupe Arguello and Kevin Knox, Shafter's Randy White, Mark Keeley and Al Meyer, and Corcoran's Manual Perez. Arvin is always tough in the East Yosemite League and this year will be no exception. East Bakersfield looks to be the sure favorite in the South Yosemite League. They only lose one runner from last year

(NCS champion last year), **Diablo Valley Athletic League's Mt. Diablo** and **College Park**. Others that could upset are Pleasant Hill which just lost the NCS Frosh-Soph title by an eyelash last season; the **Foothill League** champion, Miramonte; defending East Bay champ San Ramon; and up and coming Campolindo.

To the west in the Alameda County-Hayward area Newark could have a great season with all hands returning from a very successful **Mission Valley League** championship squad. Washington of Fremont will be a strong factor as will be Alameda. Castro Valley, number three in NCS last year, will not be as strong this season, yet will be one of the better teams in their area and should be favored in the **Hayward Athletic League**. Aside from Alameda things are hazy in the **Alameda Athletic League** since finances, or lack of same, have clouded the picture in the Richmond City Schools and so a promising El Cerrito and De Anza squads are big question marks at this time. De LaSalle of the **Catholic Athletic League** should be ahead of Bishop O'Dowd this go around.

Some of the toughest teams in the NCS will come from the more northern part of the Bay Area, the **Marin County Athletic League**. Redwood went undefeated in the league and went on to win the NCS, however they lost the Division title to a strong San Rafael who then wound up second in the section. Tamalpias won the Frosh-Soph NCS title so should also be a contender. However, champion Redwood has their top four runners back and will be awful hard to beat.

Individually College Park's Kevin Sears and Diablo's Ron Criner finished in the top six of last year's NCS and should give the two **Diablo Valley Athletic League** entries strong fire power. Add to that Matt Dowling of College Park, Boyd Tarrin and Gabe Aguayo of Livermore, Newark's Mike Smith and Mission San Jose's Tom Smith. Redwood's Hal Schulz was 10th in the section last year and zipped a 9:15.2 during track. Hal's teammate Dave Mihailoff placed 12th in the section last year and will give everyone a run for it. Aran Collier of Tamalpias was fourth last year and could take it all.

In the Central Coast Section it should be another very close race for team honors in the always tough **Fremont Athletic League**. Gone are Hulberg, the defending

Looking first at the Orange County; Costa Mesa with Ellis, Hawkinson, Thompson, and Young all under ten flat on the Orange County course should dominate the **Century League**. Corona Del Mar led by Jeff Day and El Modena led by Chris Money should provide the toughest competition. The **Enterprise League** should be a two team battle between Foothill and Huntington Beach. Foothill has the top two individuals in Mark Spilsbury and Greg Gerich. Huntington Beach will depend on three "All County" runners, Calvano, Harrell, and Gifford. Foothill will back Spilsbury and Gerich with Toberty and Way who were also "All County." The **Freeway League** looks like a very tight team race between La Habra and Buena Park. Fullerton has the potential to be there too. All three teams have most of last year's squad coming back. Top individuals include Dean (Fullerton), Mitchell (Lowell), Ryan (Sunny Hills), and Cendejas (Buena Park). The **Garden Grove League** will be just as tight. Garden Grove High, the champs for the past two years, has the best potential but Bosa Grande, La Quinta, and Rancho Alamitos will provide stiff competition. Mark Henig (La Quinta) is the top returning runner in the league. He placed eighth in last year's CIF-3A. The **Orange League** looks like a two team race with El Dorado and Valencia. El Dorado has the league's best individual in Sutzi and a slight depth advantage over Valencia. The two schools have battled close ones before so this year is nothing new. In the **South Coast League** Mission Viejo is a slight favorite. Top contenders include Laguna Beach, San Clemente, and University. Laguna will rely heavily on Eric Hulst, while Mission Viejo will count on Mike Walterhouse. San Clemente has another top runner in Terry Huddleston. University dominated the younger divisions last year and may have the best depth. Edison is the favorite in the **Sunset League**. They will probably be one of the top three teams in the entire county. They will be led by Colin McConnell. The closest competition should come from Westminster and Fountain Valley.

Moving into the northern part of the section the defending champion in the **Channel League**, Dos Pueblos, lost only two of their top seven. Jeff Coffman will pace the way for Dos Pueblos. Santa Barbara and Hueneme will be chief

strong Upland and Claremont. Upland has lost league champion Mark Sorenson but retains their depth. Mike Roza of Montclair and Mike Boetcher of Pomona will provide plenty of individual highlights. The **Hacienda League** also appears to be a two team race between Walnut and defending champion San Dimas. Joel Hope of Alta Loma is the defending league champ and he's just a junior. He holds the CIF Frosh-Soph mile record and as a soph recorded a 4:21-9:44 double. Other individuals going after Hope will be Scott Carter of Walnut, Doug Moore of Royal Oak, Mike Greene of Bonita and Perry LaMont of San Dimas.

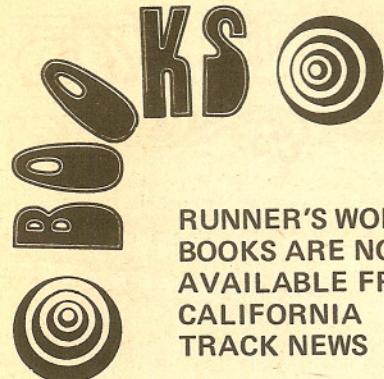

The **Los Angeles City Section** should be very interesting to watch this season for two reasons. First, Los Angeles City schools will increase the length of their cross country race to 3.0 miles for varsity and junior varsity races (10th grade will still run 2.0); and second, most of the outstanding runners from the last few years have graduated so a new group of names will appear as this year's stars. University, coached by Dick Kampmann, has to be the favorite for the Section team championship. Uni is the defending city champion and loses only Peter Levine from last year's squad. They will be led by Bill Bredall, Andy Sherrill, and Jeff Saunders. Other schools that could push Uni for the title include: Mid-Valley League powers Kennedy High with Tom Babiracki and juniors Greg Edwards and Robert Traba, and San Fernando High with Joe Meza, Manuel Fierroz, and Steve Duarte; Marine League favorite San Pedro High led by Ron Cornell, Bob Bailey and Paul Anderson are also strong contenders. Other leading teams should be Palisades High and Venice High from the strong Western League; and Taft High and Chatsworth High of the West Valley League. League breakdowns look like this: **Eastern League** favorite is Garfield paced by Fajardo. Guyton of Roosevelt and Garcia of Huntington Park will be individual contenders. San Pedro has a good shot at the **Marine League**. Top individuals being Cornell and Bailey of San Pedro, Villarreal of Carson and Sierra from Banning. Wilson is the pick in the **Northern League** and they will be paced by Quemada. Fremont will be counting on Ledet to hold off Washington and Los Angeles for **Southern League** honors. Sherrill and Bredall should pave the way

Pedro Medrano of Sanger. Wasco is the defending **South Sequoia League** champion, and although they lose Central Section champion, Sammy Garcia, they retain five of their top seven and pick up age group standout Todd Knox. Corcoran and Shafter would like nothing better than to knock off Wasco and will have a run at it. Top runners could be Wasco's Lupe Arguello and Kevin Knox, Shafter's Randy White, Mark Keeley and Al Meyer, and Corcoran's Manual Perez. Arvin is always tough in the **East Yosemite League** and this year will be no exception. East Bakersfield looks to be the sure favorite in the **South Yosemite League**. They only lose one runner from last year and also won the junior varsity race. Bakersfield, Foothill and Highland will have the best shot for an upset. Look for top individuals in East's Terry Lewis, Brian Thompson, and Rodney Lewis; Bakersfield's Bert Ellison, West's David Riel, Foothill's Harry Jimenez and a batch of young runners from Highland in Felix Elieff, Frank Yorkus, and Eddie Lujan.

In the **Sac-Joaquin Section** several schools from the **Central Cal League** could upset favorites Jesuit and South Lake Tahoe. Downey will be led by Tim Holmes and Alfred Soto, but Turlock and Merced have the depth. Other league favorites are Rod Rodriguez of Merced, Mark Mirza of Turlock, Lucas Alberto of Modesto and Murphy Miller of Atwater.

Predictions don't mean much when it comes down to the nitty-gritty of a rough and tumble cross country season. One thing for certain is that there is a lot of excitement ahead as the season unfolds. Sorry we don't have more information on the Sac-Joaquin, San Diego, and Northern California Sections. We are most grateful to the following coaches who provided the basic information for this preseason summary: Alan Beymer, Ted Oliver, Andy Darby, Doug Rudolf, Dennis DeWitt, Pete Nelson, Al Rhodes, Steve Bruhns, Jerry Whitaker, Vern Gambetta, Norm Eliason, Doug Basham, and Bob McGuire.

*Kathy
Costello*

AAU field I will more likely key off of a proven opponent for 1000 to 1320 yards and then attempt a kick."

Kathy appreciates her participation in track and is setting some worthy goals for the future. "Success in track has opened up many new horizons for me. I have made many friends and enjoy the physical

club to make a fifth runner and a complete cross country team. She swam 2 days and ran 2 days a week for the first month until swimming was over, then devoted 5 days a week to running. That first year she won the East Bay Invitational and placed third in the Northern Cal Invitational. In the Spring of 1973 she ran track for the first time with bests of 57.0 in the 440 and 2:16 in the 880.

"As a junior she ran in a few boys JV cross country races and again won the East Bay Invitational but the hills in the Northern Cal Invitational did her in and she was only fifth. Track was different. Since this was the first year for girls track as an official sport (CIF). She worked out with the better boys (note: all of our girls work out with boys at all workouts - runners are runners, jumpers are jumpers, etc. regardless of sex - we just have different levels of ability). Kathy ran a wide variety of events from 11.8 in the 100 through 11:10 in the two mile, with 2:10.6 in the 880 and 5:01 in the mile her top marks. She had come off of her first AAU experience having run a limited winter indoor program with Orinda Track Club. She capped off her nine meet junior prep season with the 880 crown in the first CIF State Meet in Bakersfield.

"Hooking up with Orinda TC in June, she took second in the State AAU mile and third in the National AAU Junior Champs mile. That ended her AAU season as she chose not to try the Junior Olympics. Instead she hit the road all summer averaging 40 to 80 miles a week.

"Since high school cross country for girls was still not an 'official' sport she ran as our #7 varsity or #1 JV all season. Due to late hours and poor pacing she 'bombed' in her favorite, the Pleasant Hill Invitational but bounced back to destroy the girls in the league, East Bay and Northern Cal Invitations. Highlighting the season was a 10:41 two mile on the track.

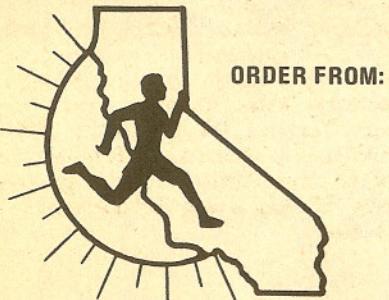

"She elected not to run AAU indoors save a leg on Orinda TC's sprint medley, as she wanted to play on the schools basketball team for her second year. During this time she still got in good mileage as taken from her log book:
January 12: Ran Daisy Hill Run 13.7 miles - 2nd in Women's Division. **January 13:** 4X55, 12X220. **January 14:** 4X55, 6X330

KATHY COSTELLO: Pleasant Hill High School and Orinda Track Club. Age 17; 5 feet, 8 inches, 123 pounds. Born December 4, 1957 in Oroville, Ohio.
Best Marks: 880-2:08.6 (75); Mile- 4:51.1 (75); 2 Mile- 10:41.0 (75). Coached by Bob McGuire (Pleasant Hill HS) and Don Bailes (Orinda TC).

The Bruins have picked another peach. Joining the ranks of the UCLA AIAW Nationals Champions will be Pleasant Hill High School graduate Kathy Costello. After three years of high school track Kathy has developed into one of the finest prospects in the state. She was State 880 Champion in 1974 and won both the 880 and one mile, just recently, in the 1975 State Meet. She also holds National Prep Records in both events.

Kathy says her favorite event "...is the mile run. I like to compete frequently, too; twice a week if the meets are low key and once every two weeks in the high level competitions. The strategy I use in each race depends on the competition. Normally I will take command and get the lead early in high school meets. In a strong

AAU field I will more likely key off of a proven opponent for 1000 to 1320 yards and then attempt a kick."

Kathy appreciates her participation in track and is setting some worthy goals for the future. "Success in track has opened up many new horizons for me. I have made many friends and enjoy the physical activity. My immediate goals are to get in good standing on the UCLA squad and shoot for 2:08, 4:42, and 10:20. The '76 Olympics? It will be tough. Maybe the 1980 Games would be a more realistic goal. I hope to continue competing until age 35 or so, or until the spirit fails." Her studies and running at UCLA will be preparing her to eventually be a coach or a recreation leader.

We asked Pleasant Hill High coach Bob McGuire to tell us a little bit about Kathy's track career so far, with emphasis on her training. "Kathy is strictly a high school product. She got her start in the Autumn of her sophomore year when four girls on our first ever female cross country team 'drafted' her off of the girl's swim

Costello

as our victory was short lived. As late hours and poor pacing she 'bombed' in her favorite, the Pleasant Hill Invitational but bounced back to destroy the girls in the league, East Bay and Northern Cal Invitationals. Highlighting the season was a 10:41 two mile on the track.

"She elected not to run AAU indoors save a leg on Orinda TC's sprint medley, as she wanted to play on the schools basketball team for her second year. During this time she still got in good mileage as taken from her log book: January 12: Ran Daisy Hill Run 13.7 miles - 2nd in Women's Division. January 13: 4X55, 12X220. January 14: 4X55, 6X330 (110 jog). January 15: 6 mile road run. January 16: AM-3½ miles, PM-2 miles, 6X55, 330 step up. January 17: 5 miles on roads. January 18: 7 miles in hills.

"When March rolled around she reeled off a 4:53.8 mile in the Granada dual on a beautiful day. Here is seven days prior workouts (all PM with the HS squad). March 11: 4X330, 4X220, 4X110, 1½ mile cool down. March 12: 5½ mile road run. March 13: 3 miles in rain, indoor sprints. March 14: 5 miles in rain. March 15: 2 miles easy. March 16: Fast 4 miles on road, 5 miles run, relay passes. Like all of our distance runners, we try to get on an alternating road-interval workout system. Unfortunately, early season rains and track meets clutter up the concept so it is difficult to recognize this pattern at times. A sample of such was as follows: March 29: Easter Relays, 2:14 and 57. March 30: 12 mile road run. March 31: 1½ mile, 660 at 1:33.5, 8X220 at 32 (45 second rest), all out 440 at 62.0, 1½ mile. April 1: 2½ mile, 16X110, 2½ mile. April 2: 6 miles on road. April 3: 1 mile, 4X660 at 1:40 (5 minutes rest), 3½ miles. April 4: meet rained out 9½ miles at 7:10 pace.

The State Meet was her Zenith and she later admitted that AAU was anti-climatic as was Junior Olympics. She won Northern Cal 880 and mile with a new National Junior Olympic Record in the mile but gave up her qualifying spot in regionals since she felt she had had a long enough season. She wanted to get back to the roads and get primed for UCLA. Workouts prior to North Coast Section Finals: May 25: Recreational swimming. May 26: AM-hard swim, PM-2½ miles easy on grass. May 27: 2X660 at 1:39 and 1:34 (5 minute rest). May 28: Easy 3 miles. May 29: Relay practice. May 30: rest. May 31: North Coast, 2:10.8, 40 minutes later 5:01.1, 55 minutes later 56.2r.
