## REEL OFF

Have you ever dreamed of owning your own magazine? Or of being a publisher or editor or writer? Here's your chance. We are putting "Women's Track & Field World" up for sale. After 18 years of putting out the magazine (and 44 years of coaching - an overlapping figure, please!), I am hanging it all up. If you're interested, get in touch. The selling price would include everything connected with the magazine from the thousands of photos, subscription lists - everything. Someone who could devote full time to the publication could make a very good living out of it. Personally, I could never do the advertising work which, after all, makes the money. It has been a hobby for me. But a great one. In addition to the challenge of getting out an issue every month, you get much travel plus such items as press credentials to the Olympic Games, World Championships, National Championships and any other meet you might desire to attend. You correspond and meet the 'powers' of the IAAF and Olympic Committees. It really is an interesting thing to do. Call me at (714) 337-8648 or write to PO Box 850, Cedar Glen, California 92321.

One of the problems the editor of WTFW faces each month is when to 'cut off' material for the next issue. This month is a particularly difficult one for meet results are arriving here daily - not just a few results, but up to 20 results in a day. If ye olde editor doesn't say "Stop. Now" and begin preparing the March issue, he's in trouble. It takes a week to put the whole thing together ready for the printer and during that week those results keep coming in and piling up and call out for a look-see as soon as the March issue is at the printer's. Just so you might know where YOUR result is if it isn't in this issue. As the Lord said to Job, "Patience".

### TROUBLE IN PARADISE - PART II

We left the story last month with the sight of USC coach Fred LaPlante scurrying about the campus to find Philippine sprinter par excellence Lydia DeVega. It had been said DeVega had enrolled at USC on a music scholarship after some detailed, inside political maneuvering in her home country.

Well, LaPlante found DeVega. He also found her I-20 form was not proper and that she had never taken entrance exams. Goodbye Lydia.

Where is she now? Lydia is enrolled at Mt San Antonio College in Walnut, California, and has already competed for that institution in an early season meet.

## KALEIDOSCOPE

Edwin Moses exhibited much glee after he was decelerated innocent at his trial - he should also be glad I wasn't a member of the jury. I agree with Rick Reilly of the 'LA Times' that at that time of the morning (3:15AM) "Most of us are in our Dr. Denton's".....Well, another of my favorite people has changed her mind once again. Carol Lewis is now BACK in school and says she "wants to compete in the NCAA" Isn't that nice. Makes Coach Tom have a warm feeling to know one of his athletes actually WANTS to compete in the NCAA.....And at Houston, Jackie Washington is resting after undergoing foot surgery but should be back for the outdoor season.

Patty Bradley can relax. Illinois has hired Gary Winkler to be its new track coach as of next June. Winkler is now head coach at Florida State. Wonder why he is leaving FSU?..... Are you into whitewater rafting, canoeing, rockclimbing, sea kayaking or backpacking? There's a summer wilderness program at Mariah Wilderness Expeditions run by females for females. Write PO Box 1384, El Cerrito, Ca if., 94530.....

Olympic shot put champion, Claudia Losch of Germany, is out for a spell with a muscle injury - suffered while running a heat in the 60 metres at Munich. Her time? A not bad 7.78..... If Ray Lump, the meet director for the Olympic Invitational, would marry WTFW photographer Dodie Bump, she would become Dodie Bump Lump.....The result is the same but the rumors were not quite right as listed in last month's WTFW. Leslie Deniz has withdrawn from Arizona State and is now attending a junior college near Gridley, Cal. Natalie Kaaiahia did not flunk out, but she is redshirting this season.

Wanta be confused? Grace Jackson was 2nd in the 300 meters at Princeton on December 30. Cynthia Green was third. Jackson's time was hand held 1:06.2. Green's time for third was FAT 1:06.32. Jackson's time has to be converted and becomes 1:06.34 - which puts her behind Green on the US List.....Makes one want to throw up. There are people now getting (I was going to say 'earning' but that's wrong), thousands of dollars per race who couldn't carry the bags for some of the former good ones.....

Trapped again. One of the networks advertised coverage of the Olympic Invitational. So what happened, it was 14 minutes before the first event was shown, they ran two events and then switched to ice skating. I enjoy looking at ice skating, but not in the middle of watching a track meet. What was the coverage? They showed Carl Lewis run 55 meters, showed Brisco winning the 440, showed Mary Decker's non-finish 1500, showed the men's mile and two laps of Wysocki's upset win over the Olympic 3000m champ. The rest was skating and/or boxing.....

Another good one to leave school is Louise Romo of Cal now at home....THE quote of the month (perhaps the year) came from Ruth Wysocki after seeing Decker crying when forced to drop out of the 1500 at Meadowland. "It's too late. They announced the Academy Awards nominations yesterday".....

That 'most exciting relay ever seen' award which I announced here a couple of months ago to Taiwan for their 16x55m affair - it was not 16x55, it was 32x55m.....Oklahoma staged its 'Track Classic' last month and the result sheet came out with results for the 60 1/2 yard dash and the mile relay.....'Sport' magazine comes up with "A story we'd like to see" and predicts this item will make the wires in 1985:

Eugene, Ore. - Still smarting from the Zola Budd debacle of the 1984 Summer Olympics, track star Mary Decker petitions The Athletics Congress for permission to race alone. "I am the best anyway," she reasons. "These other people just get in my way."

Some Names I Like for this month include Julia Hoots, a shot putter for CP/SLO, Tanya Twedt, Iowa State high jumper, Ngina Chiteji, distance runner from Brown, Comfort Igeh of Wayland Baptists, Comfort Igabon of

Texas Southern's Katherine Wallace was a double winner in the long jump (19'8½) and the 60y dash (7.0) and Prairie View's Brynnette Smith won the two long races in pedestrian times (11:33.35/5:20.24).

In spite of these marks, Smith was voted the "track athlete of the meet" and Vivian Brown of Jackson State was selected as "field athlete of the meet" for her tie for fourth in the high jump and her second in the long jump. Brown also picked up a sixth in the short dash. That's the "athlete of the meet"?

## MILLROSE GAMES

New York, NY, Jan. 25: Diane Dixon of the Atoms Track Club combined with some lactic acid in the legs of Valerie Brisco to score the biggest upset of the 1985 Millrose Games. The former Ohio State runner, the only US gold medal winner at the World Indoor Games the previous week, caught Brisco with her knees down in the last 30 yards and breezed to a big win in a hand-timed 52.9.

Nearly as big an upset is credited to Dixon's new teammate Jennifer Inniss. The former Cal State LA runner from Guyana, pipped the field in the 60y dash for what is certainly her finest hour. Back in fourth place was Olympic silver medalist and winner of the Sunkist Invitational one week earlier, Alice Brown. Brown, who ran 6.72 seven days earlier had to be content with 6.84 tonight.

Mary Decker, fresh from an attack by a mugger on the Lonesome Pre Trail in Oregon earlier in the week, swept to an easy win in the mile. Her time of 4:22.01 was close to the world best, but she tired over the last 200 meters, probably due to the events of the week.

Good high jumping with the Pacific Coast Club coming through for Coach Jennings. The winner was Debbie Brill at 6'4¼. Olympic medalist Joni Huntley was next at 6'3¼ and teammate Louise Ritter was over 6'0½ back in 5th place. Coleen Sommer returned to the track (field) wars after pregnancy and proceeded to hop over 6'2. Interesting to note 4th placer Maryse Ewanje-Eppe, the pride of France, who cleared 6'2, was representing the University of Arizona.

## ALBUQUERQUE INVITATIONAL

Albuquerque, New Mexico, Jan. 26: The long-time meet director of the Albuquerque Invitational, Ken Hansen, managed once again to gather a fine field at the mile high city in spite of competition from Chicago and the Millrose Games the previous night. The cast included a number of Millrose competitors, all of whom must have been quite sleepy at meet time.

Alice Brown reversed the decision she lost to Jennifer Inniss the night before as she took the short dash in 6.71, her season best. Inniss was clocked at 6.81 in second place.

The same cast of high jumpers brought Tom Jennings to Albuquerque and the result was just the same - only different. Brill won it once again, this time at 6'2¾, but tonight Louise Ritter bested Joni Huntley 6'1 to 5'11.

Valerie Brisco won the 440 in 53.60 and a Colorado high schooler named Johnson won

## BALLY INVITATIONAL

Rosemont, Illinois, Jan. 27: More good indoor marks came from the Bally Invitational as the tour made its third stop in three nights.

Fourth in this race was fellow-traveler Valerie Brisco who also ran her third race in three days.

Stephanie Hightower turned in her best-ever time of 6.88 over 50m hurdles, a mark which places her still second on the All-Time US List. Rhonda Blanford's 6.98 moves her to a tie for third on the List and Rhonda Brady's 7.01 puts her equal fifth.

Ruth Wysocki ambled the 1500 in 4:14.2 to defeat Wisconsin's Cathy Branta and move onto the US List in 7th position.

# "THE ROAD TO SINGAPORE"

## WITH THE INTERNATIONAL SPORTS EXCHANGE

By Vince Reel

There was heavy fog in Seoul. And that delayed our takeoff from Singapore by nearly three hours. Now we were landing in that Korean city and I wondered about the dinner planned for the team at the Tower Hotel. Surely at this late hour it would consist of what the staff could scrape together and not the food we originally hoped for.

How wrong we were! Buses from the Hotel greeted us as we cleared customs and whisked us off to the Hotel - three hours late. We walked into the dining room and were greeted by the sight of a buffet table more than fifty feet long, loaded with such delicacies as caviar, crab, lobster, octopus, trout, squid, a dozen kinds of cheese, every kind of cold cuts, breads, roast beef, shrimp, prawns, salmon, mahi-mahi, noodles, three kinds of rice, chimkee, vegetables of all kinds, pears, pineapples, mangoes, many kinds of nuts, tropical fruits, melons, pork, venison, duck, chicken, meat balls, pies, cakes - all had been 'kept at the ready' by a staff which had stayed overtime to make our welcome a happy one. It had been that kind of trip!

We were on the last stage of the International Sports Exchange's annual trip to the Singapore Road Race Championships and this was the second time we had gone through customs in Seoul. We spent a night here en route to Singapore, our first night away from home, just to catch up on the jet lag situation after our 12 hour flight from Los Angeles. And it was still cold in this capitol city of South Korea. Somewhere around 20 degrees.

Not so when we got off the plane in Singapore. The coldest it has EVER been in the daytime in Singapore is 65 degrees. The country wasn't near that record during this Christmas-time trip. More like 85 degrees - with the humidity of the tropics thrown in.

But I am ahead of myself. We gathered our group of 67 hardy souls at the Los Angeles International Airport some days past. Basically, this was a group of high schoolers from smaller schools, runners who never made a dent in the prep picture beyond their League championships. Most were from southern California although a few came from Oregon and Washington. Included were five or six coaches, an administrator and a reporter. Two small 9-year old urchins were also in our group. One would compete in the men's 10k run. The other would be a spectator and help her father write the story.

After our flight from Los Angeles to Korea and the night's sleep, we made it to Singapore and readied ourselves for sightseeing, shopping - and, oh, yes, competition. A dedicated group, brave souls were up and running at 6:30 each morning - shaken only by the early run in Seoul where the temperature was around 15 degrees.

Now we were really in the Orient. Or were we? Singapore has changed from its original form. When Sir Raffles founded the place and when the Raffles Hotel sat on the bay years later, Singapore was typically Oriental. The mixture of Chinese, Indian, Malaysian, Arab and English peoples made the country and the city unique. But progress has come to Singapore. It is now a city of high rises. Housing units of 15 stories greet you as you take the 5-6 mile ride from the airport to the heart of the city. A near-sighted or inbred resident couldn't find his own apartment in the dark for they all look alike. A couple of million people live in these apartments. Yes, they have eliminated the bamboo houses and the canvas covered shops and built a business section second to none. Some buildings reach 71 stories as will be the new Raffles Hotel. On a drive I counted more than 50 huge cranes atop buildings under construction. There aren't 50 such cranes in all of southern California! All new buildings seem to be at least 20 stories high. It's all in the name of progress, but it isn't an Oriental city anymore. They needed land on which to build. And do you know where they managed to get the land in this landless land? The government leveled every hill in the country and pushed the dirt into the bay to provide new land. And when they didn't have enough dirt, they built a conveyor belt into neighboring Malaysia and got dirt from that country. The city is now an impressive one, but sadly, it isn't Oriental. If it were not for the people walking the streets in their native costumes, one might think he was in Chicago or Kansas City - except the buildings are too tall!

Fortunately, the old original Raffles Hotel is still there. Attempts are constantly being made to purchase the land, but praise be, the owners will not sell and this touch of the old town remains in mid-city. No longer, however, is the Raffles Hotel situated on the bay, thanks to the 'new land' which came by conveyor belt. The hotel is just as it was. When Noel Coward and Winston Churchill and Somerset Maugham were its chief residents. The Raffles is where the 'Singapore Sling' originated and such a drink is still the favorite at the 'long bar' where it all began.

Although we were in Singapore for the competition, there was much shopping, sightseeing and eating of native foods. One evening the team went to

### INTERNATIONAL SPORTS EXCHANGE WHAT IS IT?

The International Sports Exchange is a non-profit corporation which organizes athletic competition in foreign lands. The ISE selects athletes and coaches to meet teams in Hong Kong, Singapore, Taiwan, the Philippines, Germany, England, Poland, Australia, mainland China. The ISE is not exclusively for track and field. It also sends teams in volleyball, baseball, field hockey, swimming, cross country and road racing. Teams are selected to be comparable to the competition expected in the host country. High schoolers who are not the world's best get as many trips as world class performers - for example the trip to Singapore last December and January. Tours are from 10-14 days and the ISE provides everything from the competition to uniforms, hotels, meals, sightseeing, tours, parties and entertainment. ISE has taken literally thousands of athletes on these trips over the past five years and not a single person has ever said they did not want to go again.

If you, coach or athlete, are interested in making a trip this summer, contact the International Sports Exchange at 23802 Sapphire Canyon Road, Diamond Bar, California 91765, or call (714) 594-8439.

Newton's Circus for dinner where, under palm trees and in the balmy tropical weather, we ate and drank the local menu - shrimps, rice, chicken, rice and more rice, beef, pork, fish, crab - have you ever eaten crab with chopsticks? - and the drinks, freshly squeezed, were watermelon, pineapple, orange, mango. Paradiso! One runner remarked it was the first time she had eaten shrimp with its eyes looking at her or prawns as big as her hand!

One day we took a trip by train to Malaysia. Singapore is not what can be called a large country. Only about 25 miles wide and the trip took only 24-25 minutes. But some four hours to get through customs! Finally the group had the opportunity to see the tropics and the Orient in a different light. And they didn't really like it. Why? According to their reports, Malaysia was 'dirty, smelly, sad, poor, depressing, disappointing, yucky, gross, disgusting, stinky'. But what did we see? We visited the border city of Johor Baharu and spent less than three hours there. Now if you wanted to show a foreign friend what Mexico was like, would you take him to see Tijuana? Johor Baharu is a border town and we could find only tiny, stall-like shops, dirty eating establishments, street vendors - and dirt. But the trip got the athletes out of the big city with its McDonalds and its A&W's and gave them a look at a different culture from what they were used to. Even though they may have shuddered at Johor Baharu, they wrote "A good learning experience...It was really dirty and stinky, but I'm glad I went and learned about it....It showed me how privileged we are in America and made me thankful....Made me appreciate what I have....Gave me a feeling I have it made". And so they learned.

The race itself, for the women, was not a happy one - although the Americans easily won most of the medals and the team championship. The only day it rained while we were in Singapore was the day before the race when we were scheduled to go over the course. But the trail end of the monsoon season nixed that. Race day dawned - and it was dawn as we were up at 5:00 for the eight o'clock start - bright, hot and humid. We arrived at the race site - set in tropical fauna - warmed up and started. Officials had informed the runners a 'guide' was posted at strategic places to make certain the correct course was followed.

This was out "bag tree" at race time.

division where the first ISE finishers chased many an Oriental across the line.

One day we visited Sentosa Island in Singapore Bay. Sentosa is Singapore's amusement park, reached either by ferry boat or by a sky ride across the water. We took the ferry and found a small island with many things to do. Sentosa has museums for the intelligencia, bicycles to rent, swimming, rides, picnicing - the works. And good food stalls. It was a fun day for all.

Another afternoon we visited the National Exhibition which covered the 25th anniversary of the nation of Singapore. Some liked it, some did not, but we learned much about this tiny 25-year-old nation, how it has progressed and especially the happenings during World War II when Singapore, then a British colony, was captured by the Japanese.

We had hoped for a party on New Year's Eve, but unfortunately the hotel patio was booked for that date. Then a bright idea struck our leader - New Year's Eve in Singapore was not New Year's Eve in the USA. We were a day ahead - remember that International Date Line? And so we had our New Year's Eve party on January 1st - which actually was December 31 back home. Confusing?

And it was a success. Great food, a few speeches, some awards, great weather for this outdoor affair, much dancing, (I presume that was dancing), and afterward a swim in the hotel pool. The male members engaged in a diving contest in which one diver made contact with the diving board - with his head. He was given only a 6.5 for the dive, then taken to the hospital where stitches were applied.

We met some friendly natives at the park in Singapore (left). On the right, Kathy Webb (Marartha High School, Duarte, Ca), the captain of the winning 'team' displays her team's gold medals.

Earlier, I told how the team was 'mainly from small high schools in southern California'. However, one runner was not from a small high school - or any high school. She was Trish Whitney. I coached her a little when she attended Pitzer College back in the early 70's when she was Trish Cole and before she married Claremont College's football ace John Whitney. I hadn't seen her since. But here she was, the winner of Coach John Blair's 'China Cup', a series of road races in which runners amass points - overall winner gets the trip to Singapore. And so Trish was 'a little older' than most of the runners in the race. And a little faster, too. She set out at a fast pace, reached the top of a hill where a man was standing and called out "which way". Obligingly, the man pointed and Trish and her pack went that-a-way. Unfortunately, the man was only passing by and hadn't the slightest idea of what was happening. When the leading Singapore runner reached that spot, she went the correct way and her pack followed her. And so the race became two races with Whitney running her '5000' in about 11½ minutes, some 7-8 minutes ahead of the other pack.

With Solomon-like judgement, the Singapore authorities declared two races and awarded medals for both groups. The US runners had been split up into teams of seven and won first, second and third places in the 'team' competition, Singapore runners being somewhat weak. Not so in the male

That's Singapore's (and Mt. SAC's) Chee Swee Lee coming down the beautiful 'road' in Singapore.

Well, in ten days the trip was over and parents were meeting their progeny at the L.A. Airport. Believe me, they were greeting a different person than the one they waved goodbye to less than two weeks earlier. How do I know? Here's what they wrote: "It was like a gift from God how we could experience so much in ten days.....It was worth many times the cost..... I loved every minute. I will never forget it.....The trip was fantastic. High school kids got to see what foreign countries are really like and to see their culture.....It was too short.....Best time I had in my life! The freedom was the best part.....I liked the way you treated us kids.....I can't wait to go on another trip.....It was a once-in-a-lifetime experience.....I hope to get asked to many more of these trips. I'm going to run until I die.....Never had time to get homesick.....This trip opened up a whole new outlook on life for me. I see there is more to do than just save up for a car or buy new clothes. There is a whole other world out there that we should all see. There is more to do in the summer than go to the beach.....I came back with a great feeling about my country and myself. I never knew how great the USA was until I went away from it.....I really believe traveling with the International Sports Exchange has made an impact on my life. Things I saw and people I met are memories that will stay with me forever.....The trip was more fun than a person should be allowed to have.....We visited many places which helped the athletes understand important facets about the countries we visited.....I liked the freedom we had. I think this aspect should never be changed because it gives young adults the chance to act like adults.....This was the best time I ever had in my life. I will remember it forever.....I will always remember the pride I felt when I ran the race for the United States.....I can't explain in words how good of a time I had. The 10 days spent with the ISE people were just about the 10 best days in my entire life.....To ISE I would just like to say thank you for the most wonderful time I ever had in my life....."

Would you say the athletes benefited from this trip? Did visiting Singapore and Malaysia and Korea have an effect on the minds and personalities of these teen-agers. You might say that.

Here we are with our Singapore competitors after the big race.

#### FROM THE PAST

A few years ago, ISE took a team of 'Juniors' (under 18) to Korea for a meet with Junior teams from 18 nations. Here's what one of the coaches, a coach at a small high school in California, wrote about his experience: "One incident will be etched in my memory forever. Our team marched into Seoul National Stadium, which was jammed to capacity with more than 52,000 people. When they saw the American team, they absolutely went wild! Cheering, clapping, yelling, throwing flowers on the track, trying to climb the rail onto the track. Until that moment, I never knew what it meant to be proud to be an American. I had a lump in my throat and looking back at our team marching in, I saw athletes and coaches waving, smiling and eyes filled with tears. My God! What a feeling!"

## PURDUE INDOOR CLASSIC

West Lafayette, Indiana, Jan. 26: The home team's Yvonne Netterville won three events - all the jumps - and Iowa's Penny O'Brian won the 1500 and 3000, but the big news at the Purdue Indoor Classic was the 5000 meters which saw both winner Nan Doak (Iowa) and runner-up Becky Beachley (Northwestern) move onto the All Time World List.

Doak won the 5k in 15:56.5, now Number three on the All-Time List behind two other Americans, Margaret Groos and Joan Benoit. Doak's time was 15:56.5 while second placer Beachley covered the distance in 16:20.1 and is now Number 8. Three other runners, Susan Crager (Illinois State), Kim Briggs (Illinois St) and Leslie Olin (Pur) were under 17 minutes.

Netterville had three good marks in the jumps. She captured the high jump at 5'9", won the long jump at 19'3" and had her best performance in winning the triple jump at 40'4".

## DALLAS INVITATIONAL

Dallas, Texas, Feb. 2: As usual, the Dallas Invitational provided some of the top indoor performances of the 1985 season. The Dallas track, which apparently runs downhill all the way around, produced a world best by Valerie Brisco in the 'off-event' 440 and an American record in the long jump by Carol Lewis - among other things.

Alice Brown maintained her excellent 1985 form by zipping to the fastest clocking to date as she won the 60y dash in 6.65 over perennial rivals Chandra Cheeseborough and Jennifer Inness.

Brisco was all alone as she clipped a few ticks off Lori McCauley's 'world record' in the 440 with a time of 52.99. The old mark was 53.29 set in 1983. That's a far cry from the world best over 400 meters at 49.59 by Czechoslovakia's Jarmila Kratochvilova. Brisco's mark converts to 52.73 and it takes 52.26 to make the world top-10 List. Still a good run, however, and gives promise of even better things to come.

Romania sent over some pretty good athletes and proceeded to run 1-2 in the 880 with Doina Melinte and Fita Lovin and to win the mile with Maricica Puica. Melinte and Lovin had little trouble in the half mile, done with aggressive running. Lovin passed Diane Richburg on the inside around the final turn to steal the silver.

Puice was banged about unmercifully at the start of the mile, but wore down the field as the race progressed and trounced Wysocki by a goodly margin, 4:34.19 to 4:36.93.

Stephanie Hightower stayed with her winning ways to once again whip Candy Young in the 60y hurdles, 7.54-7.58. Debbie Brill was sharp in the high jump at 6'4 and Joni Huntley showed another good weekend of jumping with 6'2 in second place.

The long jump not only produced a new American record but saw Olympic champion Anisoara Cusmir winding up third behind Lewis and countrywoman Valeria Ionescu. Lewis got off her record-breaking jump on her 6th effort and might have gone farther without some minuscule stuttering on the penultimate step.

## TJ RECORD AT TIMES MEET

Inglewood, Calif., Feb. 8: In her first meet of the season, USC freshman Yvette Bates leaped 43'1" in the triple jump for a new 'world best'. Bates' mark bettered the 42'7½" leap by Florida State's Brazilian bombshell just a week earlier. Another USC freshman, Wendy Brown, recorded 41'7¾" and Cal State Bakersfield's Jewel Lovelady made it three beyond 40 feet with her 40'11" leap for third.

Alice Brown cut her season bet in the 60y dash to 6.63, just one-hundredth of a second off her lifetime best. Florence Griffith finally came to life with a 6.84 runner-up time.

Two Romanians were gold medal winners. Fita Lovin captured the 1500 in 4:13.66 and Anisoara Cusmir reached only 20'9¾", still good enough for the win in the long jump. Biggest news in the 1500 was the 4:21.73 time for veteran Michelle Hopper. The former 400m hurdler moved up to the distances a couple of years ago and has steadily improved each season until now she must rank with the nation's best.

Valerie Brisco won the 500 yarder in the good time of 1:04.76 and Gayle Watkins was the 60y hurdle winner over a non-descript field.

## PENTATHLON: USA WHIPS CANADA

From Rich Ede

Former Tennessee ace Myrtle Chester led three events but had to come from behind to win individual honors with a solid 800 performance as the US swept to an easy win in the University of Toronto Athletic complex. The team battle lost much of its suspense as Canada's Connie Polman Tuin fell in the hurdles and DNF'd. Although she continued for three more events, the US built up an 800 point lead after the long jump and only three Canadians stepped to the mark for the 800.

The individual competition seesawed as Chester won the hurdles and surprised the big jumpers by equalling Tonya Alston and Deb Clark at 1.76 (5'9¼") in the high jump. Alston took over the lead after the shot, 69 points in front of Clark. Clark's last effort landed beyond the 14 meter mark, but she could not stay in the ring. Canadian Olympian Donna Smellie moved into second in the long jump as Clark injured a knee on her first jump and Alston fouled her first and third jumps. The 800 turned all the standings around as Chester leaped into first and Alston's 2:54.8 dropped her to fourth.

Here's a challenge to 'Runner's World', Joe Henderson's 'Running Commentary', 'Runner' and other distance type publications: We challenge you to put out an issue without mentioning Alberto Salazar, Joan Benoit or Frank Shorter.....The "Dark Horse" of 1985 women's track and field is - U.S.C.....Heard many complaints about the USOC and Peter Ueberoth from individuals who served as translators at the Olympic Villages. 'Tis said they were served box lunches, couldn't get to see any of the Games and in general were treated like peons or coolies or fedherin.....Also heard one country at the Games who did not allow their athletes out of their quarters - not even to walk around in the Village unless accompanied by an official - or three.

HIGH SCHOOL KALEIDOSCOPE  
From Rich Ede

News from California: With the impetus from Hawthorne HS, (who can't get anyone to run dual meets with them), California's Southern Section will allow athletes to compete in any 13 sanctioned meets. The old rule restricted each athlete to 4 invitationals and each team to 9 dual meets.....California will also return to its 'old' State Meet format, with each of the 10 sections sending representatives to a 2-day State meet. The two-year experiment with North and South regionals each sending 4 athletes to the State Meet demonstrated too big a gap between 4th (South) and 5th (North) places in too many events. Interesting that under that format, Wendy Brown (Woodside - North) won the whole State meet by herself.

We really need to start seeing results from other than New Jersey, Texas, Oregon, Florida and California. We get a lot of news from 'Texas Track' and 'New Jersey Track' publications. We can only print what we get. We receive many calls from college recruiters for information from our lists. Send high school results to Rich Ede, 1424 Lynoak Drive, Claremont, California 91711.....A couple of early season (Jan. 5) all-comers meets in California saw some interesting results. In Berkeley, Leslie Maxey (Mills/Millbrae) served notice of her flat talent to go along with her hurdles with a 23.4 5th place finish in an outdoor 200 at Cal. And down south in Walnut the same day, Chewaukil Knighten (Locke/LA) bracketed her 400m specialty, winning the 200 in 24.2 and the 800 in 2:21.3. Frosh Tracey Eilliams (Mountain View/El Mont) claimed the 1500 in 4:51.0.

OUTDOOR RESULTS

PAGEL SHARP IN OPENER

San Diego, Cal, Feb. 10: Olympian Ramona Pagel opened her 1985 outdoor season rather well with a toss of the shot 57'7½ (to win by 16 feet) and a flip of the discus 173'3 for a narrow win over teammate and fellow-Olympian Laura DeSnoo who managed 170'11. Aside from the two weight persons, there was not much excitement at the San Diego State Open Meet.

100H/HJ, Deanne Johnson (S Di) 15.20/5'6; LJ/TJ, Tanya Tatum (S Di) 17'6/35'10¾; JT, Chris Johnson (USIU) 136'6; SP, Ramona Pagel (SD) 57'7½; DT, 1-Ramona Pagel (SD) 3'3, 2-Laura DeSnoo (SD) 170'11, 3-Laura Standing (SD) 137'6.

# YOU DON'T MAKE THINGS BETTER BY MAKING THEM COMPLICATED.

There was a time when being a runner was pretty simple.

All you needed was an alarm clock, some shorts and a decent pair of shoes.

But times changed. Things got complicated. All of a sudden it seemed that being a runner required a degree in biomechanics to understand what it was all about. And before you knew it, technology had gotten in the way of the reason you ever picked up the sport in the first place.

It was fun.

Well, at Nike, we put our heads together in order to come up with a line of shoes that cut through all the clutter and made running simple.

And fun again.

We call it the Nike V-Series. Three different types of performance running shoes. For three different types of runners.

If you want extra stability, there's the Vector.

If you want lightweight cushioning for fast-paced training, lace up the Vengeance.

If you want a combination of both, put yourself into the Vortex.

One more thing. They're all the same price.\*

That's about it. Oh sure, we could talk about these shoes until we're blue in the face. About how each features either a full-length NIKE-Air™ midsole or an Air-Wedge™. And how this patented cushioning system absorbs and redistributes the impact of every single

footstrike. The first one. The millionth one. And every one in between.

And yes, we could hit you with an encyclopedia's worth of technical jargon and findings.

Now if you want all these facts and figures, fine. Write us. We'd be more than happy to send you enough technical information on the V-Series to make your head swim.

But you don't need it. Because the Nike V-Series makes it easy to pick the right running shoe.

Which only proves, if you take technology far enough, it will bring you right back where you started.

\*Suggested retail, \$60.00. Prices may vary in Canada.
