Here it is: Your own personal progress report.

The *Runner's World Training Diary* is the most important running book you'll ever read for one very good reason — it was written by and about you.

And no matter what level you have reached, the training diary is a vital reference book, because it chronicles your day-to-day growth and shows you how far you've really come.

Inside you'll find plenty of room to record each day's training with special boxes for pace, weather, distance and week totals. A Quick Diary is provided at the beginning for rapid determination of mileage along with an easy-to-use graph to plot progress, pace conversion charts and distance tables.

Send me _____ copies of the *Runner's World Training Diary* at \$6.95 each plus \$1 postage and handling. (California residents add 42¢ state tax.)
