

# RISE TO SEASON'S STANFORD INV. "BEST" at

Well, "we" finally did it!!! In two weeks, we have made up over 65 points on Stanford, and 40 points on Sac State...plus atoned for the loss to UC Davis at Fresno. The hay is not yet in the barn...so to speak, but at least we have proven to ourselves that we can accomplish creditable things AS A TEAM.....Our time span from #1 to #5 runner is still not good (2:15) in fact...there were far too many gaps all along the way save Aubuchon's and Behrbaum's closeness act....but sometimes the "togetherness" factor is way far over-stressed...particularly when it comes to team scoring methods rather than comparison of team times. What counts is how close to the front you can get your top runners and have the rest of your troops just become as combative as possible. We are beginning to get some people up front, and we are seeing glimpses of "combateness" amongst the rest. Too bad it is not Sept. 20 instead of Oct. 14. We are just now beginning to mold as a running unit. All in all, this was a fine effort (particularly for a first year squad) and I think it can lead to even better efforts...THIS SEASON!!!!

MARY REIBOLDT....congratulations on Mary's fine effort...she is a real "combative" runner and she proved it this past race!!! "Smile Mary".....
