October 12, 1983

Mr. Charles McCabe
Senior Vice-President
MANUFACTURERS HANOVER
140 East 45th Street
New York, New York 10017

Dear Charles:

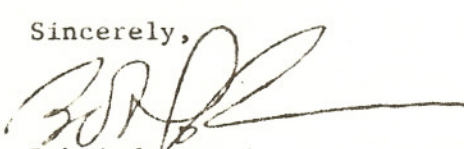

We realize that you're having difficulties forming the guidelines regarding eligibility. Until you get firm policies on these guidelines, we are requesting that we be declared eligible for the Manufacturers Hanover Corporate Challenge Championship on November 20th in the corporate division.

We are a publishing company and should be treated as any other company. Our employees work hard and long hours. Those who run know that our policy is work comes first and running second. We are not in the same category as running shops - their hours are flexible and part-time; our runners are all full-time. I strongly feel that you should reconsider our eligibility.

We have no intention to disrupt the running of this event, however, we did feel unjustly disqualified at the San Francisco race in which we placed first. We were not notified that we would be ineligible for the grand prize until the day before the San Francisco race. We were told that we would be eligible for everything but the trip, however, we do not agree with this decision or think it's fair and do want to be considered an official entrant in the November 20th race.

We sincerely hope that this matter can be settled. Manufacturers Hanover and Runner's World both have a high interest in corporate running and its continuation.

Sincerely,

Bob Anderson
President
