NOTES: - Our sincere apologies for the length of time in getting these results to you. The results are still far from perfect on the 10 and 15 mile splits, but they are a heck of a lot better than they were. The problem with all the missed times occurred when we cross-checked the 'number' sheets and 'time' sheets. The times and numbers were continually out of 'sync' (either our recorders would put in an extra time by mistake or miss a team). Since the recorders did not mark down cross-references (mark down team numbers every once in awhile on their time sheets), then the errors propagated on down the list and we had no idea what times went with what teams. After many letters and phone calls we straightened out about half of the errors, but it was impossible to get them all. We didn't have the time or patience/money to go any further. If you detect any serious errors in the above times, please drop us a line so we can correct our records. Thanks for your patience. We could have gotten the results out a lot earlier, but we figured it would be better to wait awhile and put out results that were somewhat meaningful rather than a bunch of blanks. I am sure that next year we will do a better job. A SUGGESTION: If all teams and spectators could try and stay north of each exchange point and not crowd the recorders and/or warmup by jogging across the finish/exchange point, then I feel many of the problems would not occur. Many times our recorders noted the same team two or three times as a result of a runner looking like he was finishing when he was only warming up. Try and warm up north of the exchange point please. THANKS: To all the helpers which made this Relays the best to date. Without you it could not have taken place. Special thanks to Judy Gumbs, who helped to put all the times into typable form (about a 24-hour job in itself). Next year we would like to get 4 large motor homes with cabs or windows high above the roadway and use these at our exchange points...please contact us if you could supply one for us on
